# Rocket Vac XP

The New Dimension in Back Pack Vacuum Technology

## Rocket Vac XP Main Features

- Patent Pending\* IRAM Filtration Technology. 3 Stage progressive filtration system using paper, BFT cloth and VFD panel filters; or 99.97% efficient HEPA filter.
- Patent pending\* self locating lid and flexible magnetic latch design. Suitable for left or right hand operation, using impact resistant clear lens to sight fill level.
- 360° Rotation, Snap Fit Elbow Hose Fitting. Full joint rotation of the fitting reduces operator arm fatigue and the snap-fit connection gives quick and easy access to the hose.
- New Slim Elliptical Shape reduces the vacuum cleaner footprint providing greater maneuverability in confined spaces.
- Blockage-free diffused tri-barrier exhaust for whisper quiet operation.
- Next Generation High Efficiency, H1000, 1300w Vacuum Motor provides unsurpassed airflow and suction with unchallenged reliability.
- Detachable Common Parts for Self Servicing. Cords, harness, pads etc are all easily replaced by the operator with no tooling required.
- Contoured E-Frame with ergonomic shoulder, waist and back pads providing greater user comfort throughout the entire cleaning operation.
