

# Vital Flo-Chem Thick with Rust Guard

Vital Flo-Chem concrete agitator cleaner is a safe and easy to use cleaning formulation designed for removing concrete residue and buildup from agitator barrels whilst providing a unique anti-corrosive protection to steel surfaces.

## Safe

Thick gel-like consistency = reduced splashing and exposure  
Low acid content = safer than other cleaners  
Low vapour emissions

## Environmental

Thick gel-like consistency = reduced run-off and waste and product waste  
Used neat = active working surface and reduced water usage  
Bulk Product Delivery\* = reduced container disposal and waste

## Economical

Cost effective with reduced volume requirement and reduced waste  
Rust inhibitor = steel surface corrosion protection  
Viscous consistency = reduced wastage and clings to the surface  
Onsite Bulk Product Delivery\* = reduced container disposal costs

\*Vital Chemical Bulk Product Delivery available in selected regions

Vital Chemical formulate, manufacture and provide best value solutions focused on delivering social, environmental and economic benefits.
