

L6

CHLORINATED MOULD REMOVER

► **RIGHT PRODUCT** ► **RIGHT ADVICE** ► **RIGHT AWAY**

DESCRIPTION

L6 Mould Remover is a unique blend of wetting agents and sodium hypochlorite which will remove and kill mould located on hard surfaces.

APPLICATION

L6 Mould Remover is Ideal for use on exterior walls, concrete and paths and interior bathrooms.

DIRECTIONS FOR USE

Walls: Dilute at 1:20 with water.

Apply to area to be treated, allow to act & wipe. Wipe off excess with clean damp cloth. Repeat applications may be required. Use with care around fabric or carpet as chlorine may have a bleaching effect.

Concrete and Paths: Dilute at 1:5 with water.

Apply to area to be treated, allow to act & agitate. Wash away with plenty of water, preferably with a high pressure cleaner. Repeat application may be required. Thoroughly wet & or cover sensitive plants in the area.
