

Safety Data Sheet

Auto Dish

1. Identification

Trade name of product : Auto Dish
Other Shipping Name : Potassium Hydroxide Solution
Supplier Address : Morrison CQ Agencies
2/32 Knight Street North Rockhampton
QLD 4701 Australia

Supplier Contact Details : Phone: 07 4926 2099, email: admin@mcqagencies.com.au
Emergency telephone number : Poisons Information 131126
Material uses : Auto dishwashing liquid

Product dilution information : Use as supplied

Date of issue : 1 October 2021

2. Hazards identification

Classified as **DANGEROUS GOODS** by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail.

This material is **HAZARDOUS** according to Safe Work Australia's GHS Criteria.

Hazard Category

Corrosive to Metals - Category 1
Serious Eye Damage - Category 1
Skin Corrosion - Category 1A

Signal Word: DANGER

Hazard Statements:

May be corrosive to metals.
Causes serious eye damage.
Causes severe skin burns and eye damage.

Precautionary Statements:

Prevention:

Keep only in original container.
Wear protective gloves.
Do not breathe mists. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

Response:

Absorb spillage to prevent material damage.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse.

Auto Dish

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor. Specific treatment (see section 4 of the SDS).

Storage:

Store in a corrosion resistant container.

Store locked up, in accordance with local regulatory requirements.

Disposal:

Dispose in contents/container in accordance with local regulations.

General Phrases:

Keep out of reach of children.

Classified as **DANGEROUS GOODS** by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail.

This material is **HAZARDOUS** according to Safe Work Australia's Criteria.

3. Composition/information on ingredients

Ingredient name	CAS number	Proportion %	TWA mg/m ³	STEL mg / m ³
Potassium Hydroxide	1310-58-3	10-30	2	None Allocated
Diethyl methyl phosphonate	683-08-9	<10	None Allocated	None Allocated
Tetrapotassium pyrophosphate	7320-34-5	<10	None Allocated	None Allocated

Ingredients, determined not to be hazardous according to Safe Work Australia's criteria, and not dangerous according to the ADG Code, make up the product concentration to 100%.

4. First-aid measures

- Eye contact** : Rinse immediately with plenty of water. Do not rub eye. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention.
- Skin contact** : It is important to remove the substance from the skin immediately. Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes and get medical attention. Chemical burns must be treated by a physician.
- Inhalation** : Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. Rinse nose and mouth with water. Never give anything by mouth to an unconscious person. Get medical attention if symptoms are severe or persist.
- Ingestion** : Do NOT induce vomiting. Rinse mouth. Give water to drink. Stop if the affected person feels sick as vomiting may be dangerous. Get medical attention
- Notes to physician** : Treat symptomatically. Concentrated solution can cause corneal burns.

5. Fire-fighting measures

- Extinguishing media** : Not combustible, however, if material is involved in a fire use: Fine water spray, normal foam, dry agent (carbon dioxide, dry chemical powder)
- Specific Hazards arising from the chemical** : No specific hazard.

Auto Dish

Special protective equipment and precautions for fire-fighters	:	Decomposes on heating emitting toxic fumes. Fire fighters to wear self-contained breathing apparatus in the event of a fire.
Hazchem Code	:	2R

6. Accidental release measures

Personal precautions	:	For small spills ensure suitable equipment and PPE is used. Dispose of waste in accordance with local rules. For large spills the following PPE is recommended to reduce risk: Safety glasses, chemical resistant shoes & gloves, long sleeves / trousers. Remove non-essential personnel from the area. Ensure that any acids or other products of incompatible classes near the spill are removed.
Environmental precautions	:	Contain large spills/releases using appropriate bunding or capping. Prevent entry into drainage systems, sewers and waterways. The product may affect the acidity (pH) of water which may have hazardous effects on aquatic organisms. Avoid discharge to the aquatic environment.
Methods for cleaning up	:	Spills may be slippery. Small spills use mop and bucket, for larger spills contain with absorbent material, collect and dispose.

Note: see section 8 for personal protective equipment and section 13 for waste disposal.

7. Handling and storage

Handling	:	Avoid the formation of mists. This product is corrosive. Immediate first aid is imperative. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers. Use clean dispensing equipment, Use appropriate PPE, Always add product to water when diluting.
Storage	:	CORROSIVE. Store in a cool, dry, well ventilated place. Store away from foodstuffs. Store away from incompatible materials described in Section 10. Store in original containers whenever possible. Do not store in metal containers without prior approval. Check container compatibility before transfer. Keep containers closed when not in use - check regularly for leaks. Ensure good housekeeping in storage area.

8. Exposure controls/personal protection

Occupational exposure limits	:	No information available on the product itself. Values for specific hazardous ingredients are shown in section 3.
Engineering measures	:	Use sensible work practices that reduce operator exposure to the product. Ensure that adequate ventilation is provided, and air is moving constantly in the area of use while drum is open. Keep containers closed when not in use.
Personal Protection		
Eyes	:	Safety glasses/goggles or face shield.
Hands	:	Chemical resistant gloves. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.
Respiratory	:	If determined by a risk assessment an inhalation risk exists, wear a suitable mist respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.
Skin	:	Long sleeves/trousers/chemical resistant apron/chemical resistant boots.

9. Physical and chemical properties

Physical state	:	Clear Liquid
Colour	:	Water White
Odour	:	Chemical

Auto Dish

pH	:	>12
Flash point (°C)	:	NA
Boiling point (°C)	:	100 (approx.)
Specific Gravity (g/ml @ 25°C)	:	1.15 – 1.25
Solubility in water	:	Absolute

10. Stability and reactivity

Reactivity	:	Do not mix with acids, ammonium salts or oxidising substances.
Stability	:	Stable under normal storage conditions.
Possibility of Hazardous Reactions	:	May produce heat when mixed with water. Contact with metals may liberate flammable hydrogen gas. Ammonia gas may be produced if mixed with ammonium salts.
Conditions to avoid	:	Avoid contact with food stuffs.
Incompatible Materials	:	Aluminium, tin, zinc and their alloys. Acids and ammonium salts.

11. Toxicological information

Potential acute health effects

No acute health effects expected if the product is handled in accordance with instructions provided by the manufacturer. Symptoms that may result if the product is mishandled or if overexposure occurs include:

Ingestion	:	Corrosive. Will cause severe irritation and chemical burns to the mouth and digestive tract.
Skin	:	May cause severe chemical burns. Will cause irritation to the skin. Prolonged contact may cause chemical scarring.
Eye	:	Will cause severe irritation and possible burns with serious permanent damage.
Inhalation:	:	Inhalation of fine mists may cause irritation and chemical burns to the respiratory tract and nasal passages.

12. Ecological information

Ecotoxicity data

Persistence/degradability	:	Not readily biodegradable.
Mobility in Soil	:	Mobile
Other adverse effects	:	May be harmful to aquatic species due to the effect of high pH.

13. Disposal considerations

Methods of disposal	:	Containers should be emptied as completely as practical before disposal. If possible, recycle containers either in-house or send to recycle company. If this is not practical, send to a commercial waste disposal site.
---------------------	---	--

14. Transport information

Regulation	UN Number	Proper shipping name	Class	Packing group	Additional information
ADG	1814	Potassium Hydroxide Solution	8 	II	Hazchem 2R

15. Regulatory information

Classified as **DANGEROUS GOODS** by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail.

This material is **HAZARDOUS** according to Safe Work Australia's GHS Criteria.

This material is a **SCHEDULE 6 POISON** according to the criteria of the SUSMP.

All ingredients are listed on AICS.

Hazard Category

Corrosive to Metals - Category 1

Serious Eye Damage - Category 1

Skin Corrosion – Category 1A

Signal Word: DANGER

Hazard Statements:

May be corrosive to metals.

Causes serious eye damage.

Causes severe skin burns and eye damage.

Precautionary Statements:

Prevention:

Keep only in original container.

Wear protective gloves.

Do not breathe mists. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

Response:

Absorb spillage to prevent material damage.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor. Specific treatment (see section 4 of the SDS).

Storage:

Store in a corrosion resistant container.

Store in accordance with local regulatory requirements.

Store locked up.

Disposal: Dispose in contents/container in accordance with local regulations.

General Phrases: Keep out of reach of children.

Reason for update : Regular review

This Safety Data Sheet is the first issue under the direction of the PREPARATION OF SAFETY DATA SHEETS FOR HAZARDOUS CHEMICALS. The information sourced for the preparation of this document was correct and complete at the time of writing to the best of the writer's knowledge. The document represents the commitment to the company's responsibilities surrounding the supply of this product, undertaken in good faith. This document should be taken as a safety guide for the product and its recommended uses but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this type of product.
