

# GRILL CLEAN

HIGH STRENGTH OVEN & GRILL CLEANER

► **RIGHT PRODUCT** ► **RIGHT ADVICE** ► **RIGHT AWAY**

## DESCRIPTION

**Grill Clean** is a highly alkaline oven and grill cleaner which quickly dissolves heavy grease and food build up in ovens and on hot plates.

## APPLICATION

**Grill Clean** is a strong caustic based detergent combined with a specialty mix of water softeners and surfactants formulated to remove heavy deposits of fat, oil and carbonised soils from hot plates and ovens. It provides easy rinsing and can be used on a variety of materials including cast iron, steel, stainless steel, glass, enamel, and ceramic surfaces. **Grill Clean** is not suitable for use on aluminium surfaces or equipment.

## DIRECTIONS FOR USE

**General Cleaning:** - Dilute 1:5 with water

**Heavy Duty Cleaning:** - Use as supplied. Apply **Grill Clean** to a warmed (50oC) surface. Let stand for 5-10 minutes before scrubbing or wiping off. For stubborn stains, a griddle pad may be used. Rinse surface with clean water.

Skin and eye protection should be worn at all times.

## FEATURES & BENEFITS

- ▶ No Solvents – safe to use on warm surfaces.
- ▶ Contains specialty surfactants and wetting agents.
- ▶ Concentrated – economical in use.
