

TOILET BOWL CLEANER

TOILET / BATHROOM CLEANER

▶ **RIGHT PRODUCT** ▶ **RIGHT ADVICE** ▶ **RIGHT AWAY**

DESCRIPTION

Toilet Bowl Cleaner is a viscous, multipurpose commercial toilet and bathroom cleaner with a fresh menthol fragrance. Its concentrated, mineral acid-based formula will remove soap scum, rust stains and calcium build up from toilet bowls, urinals, showers, basins and baths. Toilet Bowl Cleaner cleans and deodorises in one action.

APPLICATION

Toilet bowl cleaner is safe to use on a wide variety of surfaces including stainless steel, porcelain, and ceramics tiles. Toilet Bowl Cleaner is specially formulated with a blend of mineral acids, wetting agents and quat sanitisers which allow rapid penetration and dissolution of lime scale deposits, uric acid, soap scum and body fats. Its viscose nature means that it will cling to vertical surfaces allowing extended contact time for the product to activate. Toilet bowl cleaner is not recommended for use on natural stone or engineered stone surfaces. Always check surface sensitivity in and inconspicuous area to ensure product and surface suitability.

DIRECTIONS FOR USE

Toilets Bowls and Urinals: - Apply toilet bowl cleaner neat (as supplied) to the surfaces to be cleaned, completed coating the sides of the bowl and up and under the rim. Allow a few minutes for the product to activate before scrubbing and then rinse thoroughly with clean water.

Shower and Baths: - Mix product at a dilution of 1:10 to 1:20 with water. Apply to surface using a flip lid dispenser bottle. Allow a few minutes to penetrate dirt and soap scum, scrub and rinse thoroughly with clean water.

Hand Basins, Benchtops & Floors: - Mix product at a dilution of 1:10 to 1:20 with water. Apply to surface using a flip lid dispenser bottle. Allow a few minutes to penetrate dirt and soap scum, agitate with sponge and rinse thoroughly with clean water.

FEATURES & BENEFITS

- ▶ Thick liquid allowing extended contact time
- ▶ Biodegradable
- ▶ Phosphate free
- ▶ Leaves fresh residual fragrance
- ▶ Safe on metal, plastic, ceramic and porcelain surfaces
- ▶ Penetrates soil quickly
- ▶ Safe in septic systems
