

Safety Data Sheet

Wash Up

1. Identification

Trade name of product : Wash Up
Other Shipping Name : None allocated
Supplier Address : Morrison CQ Agencies
2/32 Knight Street North Rockhampton
QLD 4701 Australia
Supplier Contact Details : Phone: 07 4926 2099, email: admin@mcqagencies.com.au
Emergency telephone number : Poisons Information 131126
Material uses : Dishwashing liquid
Product dilution information : Non-hazardous under GHS criteria when diluted at 1:3
Date of issue : 1 August 2021

2. Hazards identification

Classified as **NON-DANGEROUS GOODS** by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail.

This material is **HAZARDOUS** according to Safe Work Australia's GHS criteria.

Signal Word

Warning

Hazard Classifications

Skin Irritation – Category 2

Eye Irritation – Category 2A

Hazard Statements

H315 Causes skin irritation.

H319 Causes serious eye irritation.

Prevention Precautionary Statements

P102 Keep out of reach of children.

P103 Read carefully and follow all instructions.

P264 Wash hands, face and all exposed skin thoroughly after handling.

P280 Wear protective gloves and eye or face protection.

Response Precautionary Statements

P101 If medical advice is needed, have product container or label at hand.

P320+P352 IF ON SKIN: Wash with plenty of water and soap.

P321 Specific treatment (see Section 4 of this SDS).

P332+P313 If skin irritation occurs: Get medical attention.

P362+P364 Take off contaminated clothing and wash it before reuse.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical attention.

Storage Precautionary Statements

None allocated

Disposal Precautionary Statements

None allocated

Poison Schedule

Not scheduled

3. Composition/information on ingredients

Ingredient name	CAS number	Proportion %	TWA mg/m ³	STEL mg / m ³
Benzenesulfonic acid, dodecyl-, sodium salt	25155-30-0	5-10	none allocated	none allocated
Amides, coco, N,N-bis(hydroxyethyl)	68603-42-9	1-5	none allocated	none allocated

Ingredients, determined not to be hazardous according to Safe Work Australia criteria, and not dangerous according to the ADG Code, make up the product concentration to 100%.

4. First-aid measures

- Eye contact** : If in eyes, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for at least 15 minutes. Seek medical advice if symptoms occur.
- Skin contact** : If skin irritation occurs, remove contaminated clothing and flush skin with running water. Continue flushing with water for 15 minutes. Seek medical advice if symptoms occur.
- Inhalation** : If required, remove person from exposure and avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow person to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.
- Ingestion** : Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious person. If vomiting occurs give further water. Seek medical advice.
- Notes to physician** : Treat symptomatically

5. Fire-fighting measures

- Extinguishing media** : If material is involved in a fire use water fog (or if unavailable fine water spray), alcohol resistant foam, standard foam, dry agent (carbon dioxide, dry chemical powder).
- Specific Hazards arising from the chemical** : Non-combustible material
- Special protective equipment and precautions for fire-fighters** : Non-combustible, however following evaporation of aqueous component residual material can burn if ignited.
- Hazchem Code** : Not applicable

6. Accidental release measures

- Personal precautions** : Use PPE when handling any spills, including gloves, safety glasses and appropriate footwear. Avoid contact with skin and eyes.
- Environmental precautions** : Contain spill using appropriate bunding or capping and prevent run off into drains.
- Methods for cleaning up** : Spills may be slippery. For small spills, wipe up with absorbent cloth or paper towels. For larger spills, contain with absorbent material (e.g., soil, sand or other inert material). Collect and seal in properly labelled containers for disposal.

Note: see section 8 for personal protective equipment and section 13 for waste disposal.

Wash Up

7. Handling and storage

- Handling** : Avoid prolonged contact with skin and eyes. Use clean dispensing equipment, use appropriate PPE and always add product to water when diluting.
- Storage** : Store upright in a cool, dry, well-ventilated place out of direct sunlight. Store away from incompatible materials described in Section 10. Ensure good housekeeping in storage area. Keep containers closed when not in use and check regularly for leaks.

8. Exposure controls/personal protection

- Occupational exposure limits** : No value assigned for this specific material by Safe Work Australia.
- Engineering measures** : Use sensible work practices that reduce operator exposure to the product. Ensure that adequate ventilation is provided, and air is moving constantly in the area of use while drum is open. Natural ventilation should be adequate under normal use conditions. Avoid direct inhalation of mists. Keep containers closed when not in use.
- Personal Protection** **No PPE required under normal use. However, the following PPE may be considered to reduce risk of exposure when large quantities are being handled.**
- Eyes** : Safety glasses
- Hands** : Gloves should be used for instances of prolonged contact.
- Respiratory** : Not required
- Skin** : Long sleeves and pants may be considered to reduce risk of chemical contact.

9. Physical and chemical properties

- Appearance** : Fluorescent yellow liquid
- Odour** : Lemon
- Flash point (°C)** : N App
- Boiling point (°C)** : >100
- Specific Gravity (g/ml @ 25°C)** : 1.01-1.03
- pH** : 6.5-7.5
- Solubility** : Completely soluble in water
- Viscosity** : Viscous

10. Stability and reactivity

- Reactivity** : No known hazardous reactions
- Stability** : This material is thermally stable when stored and used as directed.
- Possibility of Hazardous Reactions** : No known hazardous reactions. Hazardous decomposition products consist of oxides of carbon and nitrogen, smoke and other toxic fumes.
- Conditions to avoid** : Elevated temperatures and sources of ignition
- Incompatible Materials** : Oxidising agents

11. Toxicological information

Potential health effects

- Ingestion** : Swallowing can result in nausea, vomiting and irritation of the gastrointestinal tract.
- Skin** : Contact with skin may result in irritation.

Wash Up

Eye	:	May cause serious eye irritation.
Inhalation:	:	Not normally a risk, however material may be an irritant to mucous membranes and respiratory tract.
Chronic	:	No information available

12. Ecological information

Ecotoxicity data

Persistence/degradability	:	No information available
Mobility in Soil	:	No information available
Other adverse effects	:	Avoid contaminating waterways. No known significant effects.

13. Disposal considerations

Methods of disposal	:	Containers should be emptied as completely as practical before disposal. If possible, recycle containers either in-house or send to recycle company. If this is not practical, send to a commercial waste disposal site.

Reason for review : Formulation change

This Safety Data Sheet is the first issue under the direction of the PREPARATION OF SAFETY DATA SHEETS FOR HAZARDOUS CHEMICALS. The information sourced for the preparation of this document was correct and complete at the time of writing to the best of the writer's knowledge. The document represents the commitment to the company's responsibilities surrounding the supply of this product, undertaken in good faith. This document should be taken as a safety guide for the product and its recommended uses but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this type of product.
