Product contains wheat, gluten, egg and milk;

Product may contain traces of soy and mustard. Bertagni does not handle these raw material inside the factory. Despite all our efforts , soy and mustard come from supply chain.

SO₂ is contained in some raw materials used in the plants, as wine and vinegar. However, these ingredients undergo long cooking plus pasteurisation and this is enough to make the SO₂ disappear from the final product. Therefore it is not necessary to declare the presence of sulphite.

Product may contain traces of Fish, crustaceans and nuts.
