

ENGINE CLEAN MOTO

**Engine cleaner before drain
Additive to add to engine oil before oil drain
For motorcycle 4 Stroke engine**

TYPE OF USE

MOTUL Engine Clean Moto is suitable for use in all diesel and petrol engines with or without turbocharger. Reliably dissolves operationally caused contamination and resin formations in the complete oil system. Eliminates aggressive residues from the combustion process. The dissolved dirt can then easily be removed with the used oil during the oil change. The product contains highly effective antifriction lubricants that reliably protect the engine during the cleaning process.

PERFORMANCE

Only a clean engine can run on full power! Easy to use – no extra effort. Removes lastingly deposits and residues from piston rings, oil channels and housing walls as well as on hydraulic valve lifters and the valve train. The results are a considerably improved and stable compression in all cylinders. Fuel and oil consumption as well as wear and tear are reduced. Less harmful exhaust emissions support the environment and extend the life span of the catalytic converter. Avoids recontamination of the fresh oil with residues and deposits of the used oil.

RECOMMENDATIONS

- 1) Add to the oil system before every oil change.
- 2) Let the engine idle for approx. 15-20 minutes.
- 3) Carry out the oil change according to the manufacturer's instructions. Sufficient for 3L oil. For larger capacities add 60 ml per liter of oil. Product can be disposed of as waste oil.

SECURITY

Refer to the MSDS sheet and the information mentioned on the product label.

We retain the right to modify the general characteristics of our products in order to offer to our customers the latest technical development.

Product specifications are not definitive from the order which is subject to our general conditions of sale and warranty.
