

FUEL SYSTEM CLEAN MOTO X

Fuel system cleaner
Additive to add to gasoline
For moped & scooter engine with carburetors
or injection

TYPE OF USE

MOTUL Fuel System Clean Moto X removes operational caused contaminations in the entire fuel system and prevents the formation of new deposits keeping the engine performance on the desired high level. Perfect lubrication reduces wear and optimizes fuel consumption. A clean and powerful combustion reduces emission values and increases lifetime of the fuel system and the catalytic converter. Protects the system against corrosion and the fuel from oxidation.

PERFORMANCE

A clean fuel system is a necessary condition for an effective engine running.

MOTUL Fuel System Clean Moto X allows to:

- clean the carburetors or the injectors (for a better atomisation)
- prevent the formation of deposits and varnishes on inlet valves and in combustion chambers
- disperse condensation water in order to avoid any fuel system oxidation

A regular use will provide:

- optimum engine performances
- buck-free running (better rev raisings)
- fuel savings
- increased lifetime of fuel system and catalytic converter
- reduction of exhaust pollutants emissions

RECOMMENDATIONS

Add to the fuel tank before filling up.

Recommended for both, PFI- and DI-gasoline engines.

Add one can for 10L of gasoline.

Product works during operation.

SECURITY

Refer to the MSDS sheet and the information mentioned on the product label.
