

# G3 PRO

## G3 PRO RAPID DETAILER 2.0

### CLEAN & FINISH

**SILICONE-FREE POWERFUL CLEANER,  
LONG LASTING GLOSS AND PROTECTION**

### PRODUCT DESCRIPTION

G3 Pro Rapid Detailer 2.0 is a new, non-hazardous AND silicone-free detailer, which has the cleaning power to cut through even tough stains like bird lime with ease, and leaves a streak-free mirror shine with a silky smooth, non-drag finish.

Speed up claying time by 50% when used with the G3 Pro Deep Clean Clay Mitt.

It removes light dirt, dust and fingerprints and leaves a 'just-waxed', high gloss finish without stripping previously applied waxes from the surface.

### PRODUCT INFORMATION

<b>Size</b> 500 ml (16oz) e	<b>Farécla Code</b> <b>7258</b>	<b>SG Code</b> <b>78072769177</b>	<b>Case Quantity</b> 6 Bottles
--------------------------------	------------------------------------	--------------------------------------	-----------------------------------

### TECHNICAL INFORMATION

Appearance: Opaque Liquid

VOC Content: ≈ 0 g/l

Relative Density: 1

pH: 8.7

Silicones: No

**CLEANS BODYWORK, GLASS, PLASTIC, RUBBER AND CHROME**

**REMOVES BIRD LIME, TREE SAP, DUST AND FINGERPRINTS**

**LEAVES A PROTECTIVE LAYER ON GLOSS, SATIN AND MATT FINISHES**

### HOW TO USE

#### FOR LIGHT TO HEAVY DIRT

1. Working in sections, lightly spray the area to be cleaned with G3 Pro Rapid Detailer 2.0
2. Spread product evenly using a dry, clean microfibre cloth
3. Buff off with a soft, clean, dry cloth using light circular motions

#### FOR INGRAINED DIRT – USE WITH THE G3 PRO CLAY MITT

1. Spray G3 Pro Rapid Detailer 2.0 onto the selected work area and a **G3 Pro Deep Clean Clay Mitt** (Part No. **7191**)
2. Gently work the mitt over the lubricated surface with light pressure without letting it dry. **CAUTION:** Keep the G3 Pro Deep Clean Clay Mitt lubricated during use
3. Buff off any residue with a soft, clean, dry cloth using light circular motion. The surface should now feel smooth to the touch.

For tougher contamination like birdlime, allow the product to dwell for a few seconds before wiping.

If the product has been left and dried on the surface, re-wet before wiping by spraying more product onto the surface.

When used on the flattest of matt finishes, exercise caution and test first in an inconspicuous area.
