COVID-19 Update

Since the end of January this year, the medical landscape in Australia changed dramatically.

Product shortages and supply chain difficulties have made it challenging for us to keep up our usual high standard of service but we are confident that we are coming out the other side stronger and better equipped to service our clients.

We would like to say a huge thankyou to the heroes on the front line who have been tirelessly working to keep our country safe. Your efforts are sincerely appreciated by the Australian people.

In this issue of the Medilogic Messenger, we bring to you a large range of Medical Equipment on sale for the end of financial year. Keep an eye out for the rebates available on select Welch Allyn products.

Over the last six months, our team have also worked hard to secure stocks of COVID-19 related products, including infection prevention items and PPE. You will find some of these listed on Page 16 and also on our dedicated web page.

As always, please reach out if you feel we can further our efforts to service your requirements.

Kind regards,

David Craddock | Director

\$150,000 Instant Asset Write Off

From 12 March 2020 until 30 June 2020 the instant asset write-off: threshold amount for each asset is \$150,000 (up from \$30,000) eligibility has been expanded to cover businesses with an aggregated turnover of less than \$500 million (up from \$50 million).

The criteria have changed over time so make sure you check with your financial advisor whether your business is eligible. Further information available from the Australian Tax Office.

What our customers say

“

I have been dealing with Medilogic for some years now. As a busy cosmetic and plastic surgery practice we require an efficient supply of good materials and we require good backup support. Medilogic have provided an excellent service for us in this respect. I have no hesitation in recommending them as suppliers of products required by medical practices because of their efficiency, professional attitude and indeed their friendliness.

Dr John Newton
Cosmetic and Plastic Surgeon,
MBBS, FRACS, AASPS, ASAPS.

“

The service offered by Medilogic is second to none. The range of products is endless and if they don't stock something they will get it in for you. Medilogic has provided the entire medical fitout for our new premises in Newcastle. The goods were delivered on time and they were more than happy to exchange items if required. If it is excellent service you are after I cannot recommend them highly enough.

Practice Owner,
Lotus Dermatology, Newcastle.

“

We are very grateful for the care and service that Medilogic have given to Tamworth Aboriginal Medical Service. They support us with many calls for product information, quotes and personal service to the facility. Their ordering system is excellent with us receiving our orders the next working day. With us being in a regional country area, we consider this exceptional.

Practice Manager,
Tamworth Aboriginal Medical Service

“

Medilogic has made our busy Dermatology Practice flow even more smoothly. Medilogic's website, ordering process, equipment choices, and after-purchase service is easy, prompt and professional. The Doctors and Nurses at Melanoma Institute of Australia.

Doctors and Nurses,
Melanoma Institute Of Australia.
