

Eureka Emergency Lighting Test Kits

KEY FEATURES

- Compact design
- DIN rail mount
- LED status indicator
- Provision to monitor up to 12 x 240v circuits
- Test button simulates lighting circuit failure & initiates automatic two hour minimum (battery discharge) time delay.
- Phase failure monitoring

EMERGENCY LIGHTING CONTROL UNIT	
Manufacturer	Eureka
Product Range	Eureka Emergency Lighting Test Kit
Circuits	12
Sensing Circuit Voltage	240/415V
Sensing Circuit Operation	< 190v with reset at > 215v
Sensing Circuit Withstand	1kV
Supply Voltage (50hz)	240V
Output Contact Rating	6A AC1 at 240VAC (Use in conjunction with NC Contactor)
Dimensions (HxWxD)	87 x 105 x 58 mm
Temperature Range	-10°C to 55°C
Reset Time Delay	10 seconds
Compliance	AS/NZS 2293.1
