INSTALLATION

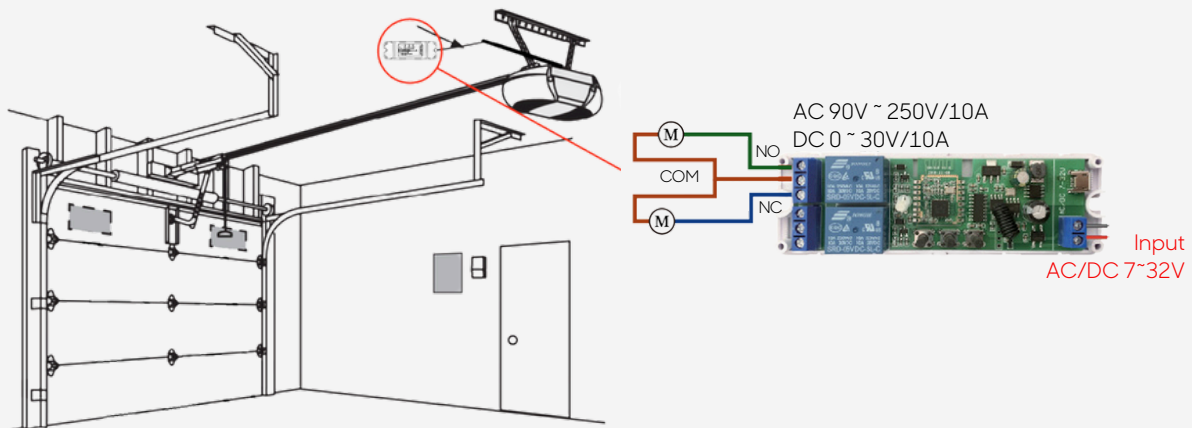

CAUTION: PLEASE CUT OFF THE POWER WHEN WIRING.

HOUSEHOLD AND INDOOR USE ONLY. INSTALLED BY A LICENSED ELECTRICIAN.

1. Use a screwdriver to loosen the terminal screws on the garage controller input side.
2. Connect the wires from the AC/DC Adaptor to the input terminal.
3. Connect the wire to the control terminals according to the garage door motor.
4. Plug the AC/DC adaptor into the power source.
5. Turn on the main power.

Tips: For the specific wiring method (using NO or NC), please refer to the garage motor manual.
