TS Series Tool

- Use with Garland TS series outlets for quick and reliable termination
- Comes with 1 spare cutting blade

Designed to be used with the Garland TS series of outlets, this tool enables the user to terminate and trim all 8 wires in one simple action.

The cast alloy construction has been optimised for strength and comes with a spare cutting blade.

The handle contains an integral locking lever to allow the tool to be locked when not in use, thereby protecting the cutting blades.
