

# MyAlarm

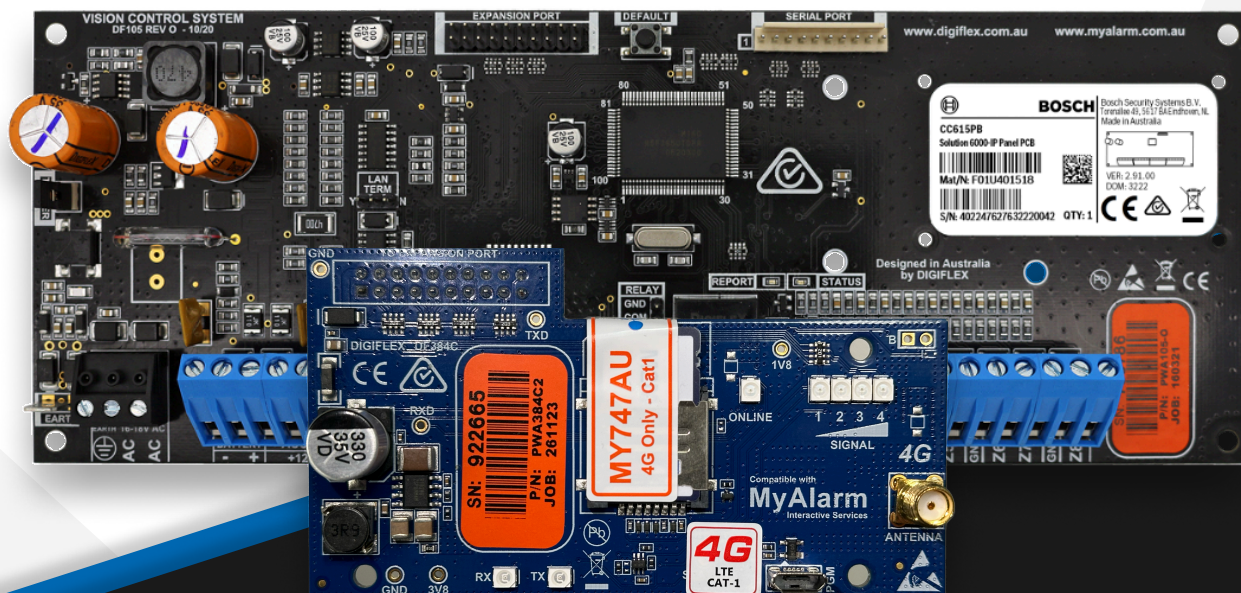

Asia Pacific

## MY746/7AU

4G Radio Module

A **cost-effective** solution for connecting your control panel to the MyAlarm platform via a **4G Cellular Radio** using MyAlarm's Private VPN SIM Plans.

## Why Choose The MY746/7AU?

### Quick Setup

Plug into a compatible panel, register on the MyAlarm platform, and choose your preferred SIM plan.

### Redundant Dual SIM Paths

Supports both **Telstra** and **Optus** SIMs in a single unit. All communications secured by the **MyAlarm Private VPNs**!

### Protected Power Connection

The MY746/7AU is powered directly from the control panel's internal supply, eliminating the need for external power wiring.

## Need More Security?

### 1hr Poll Fail - *Standard*

Notification is included with all MyAlarm SIM plans.

### 20min Poll Fail - *Upgrade*

Upgrade for a small fee.

### WiFi backup path

Add WiFi with no additional plan cost.

### Dual SIM

(Telstra + Optus) provides greater network resilience.
