

WSD02A - Hardwired shock sensor with built-in reed switch

Shock Detector with Built-in Reed Contact Switch - WSD02A

- › Mass inertial vibration sensor - highly reliable on any surface
- › Gold plated, self cleaning contacts - highly corrosion resistant
- › Suitable for horizontal or vertical mounting
- › Wide range of sensitivity settings
- › Option of momentary or latching settings
- › Dual LED indicators for power and alarm
- › The relay is protected by metal casing to minimise magnetic interference
- › Built-in reed switch
