

Looking for a natural source of Silicon?

connective tissue

skin

bones

ligaments

collagen

teeth

tendons

Vegesil contains a herbal extract of Spring Horsetail which contains naturally occurring silicon. Silicon is required for the proper integrity of the skin, ligaments, tendons and bones, and plays a role in:

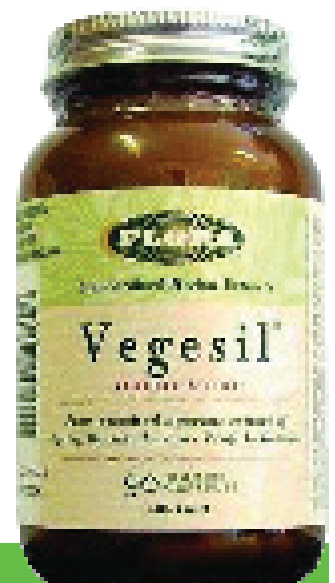

- the formation of connective tissue
- the formation of collagen
- supporting proper mineralisation of bones and teeth

Preservative-free. Always read the label. Use only as directed.

Available from all good health food stores, health practitioners or buy online.

Vegesil is made from Vegetal Silica
