Other Integrity™ Architectural Seals include:

- Door Perimeter Seals
- Door Bottom Seals
- Automatic Door Bottom Seals
- Threshold Plates
- Brush Seals
- Magnetic Seals

Contact your nearest Kilargo office for further details.

Installation detail: Face fixed

It is not necessary to remove the door from its hinges unless otherwise specified.

- Step 1** Remove the T bar from the packaging and measure the height of the meeting stile.
- Step 2** Cut the aluminium T bar to the required length.
- Step 3** Determine the door handing and position the T bar against the appropriate meeting stile and mark out the hole locations with a pencil.
- Step 4** Drill pilot holes with a 2.5mm drill bit (if required).
- Step 5** Screw fix the aluminium T bar to the meeting stile using the screws supplied.

Installation detail: Rebated

- Step A** Determine the door handing and remove the door leaf to which the T bar is to be fitted.
- Step B** Using a router, rebate a 21mm wide x 3mm deep groove to accommodate the T bar.
- Step C** Re-hang the door and follow fitting instruction steps 1 to 5 of the "Face-fixed" installation method.

We recommend the IS7062 seal be fitted with the Kilargo Integrity™7000 series perimeter seal and an 8000 series automatic door bottom seal.

Important

Ensure that the installation of this product does not impede the opening or closing of the door. It is recommended to check the adjustment of the door seal periodically to ensure the door assembly to which it is fitted, closes and latches properly.

Note

Recommendations as to methods for use of materials and construction details are based on the experience and knowledge of Kilargo and are given in good faith as a general guide and service to designers, contractors and manufacturers. Kilargo reserves the right to make alterations or delete any installation detail without prior notice.
