670 Series Camlocks

Description

The Lockwood 670 is a high quality cam lock, using the traditional Lockwood pin-tumbler cylinder mechanism. It features 90 degree rotation of the barrel, with key withdrawal in the vertical position. The use of a pin-tumbler mechanism results in a strong, durable camlock, with a wide range of keying options, allowing you to incorporate cam locks into your building's new or existing keying system.

Product Details

Cam Lock Accessories

An extensive range of accessories is available to suit different fixing requirements. These include a range of locking cams, fixing plates and spacers.

Special Keying

The Lockwood 670 Cam Lock is available to suit standard Lockwood keying, Lockwood Twin™ and Generation Six™ restricted keying systems.

Typical Applications

Desk drawers, storage units, cupboards, lockers and Tool boxes.
