SHOWER TRACKS

What a performance!

Mactrac. It's a curtain track brand that has a long and proud heritage in New Zealand. In fact, Mactrac curtain tracks have been used in New Zealand homes for more than thirty years. We know you won't find a better shower track product.

Please, take the time to read through the following information. We've designed it especially to make it easier for you to talk to your customers. If you can't find what your customer needs to know in the next few pages, call us on 0800 838 725.

SHOWER TRACKS

SPECIFIED

When people ask us what makes our curtain tracks different, we tell them a simple fact. That Mactrac is specified by more architects around New Zealand than all others combined. Architects don't want anything but the very best, so they specify the strong, durable and smooth performance of Mactrac.

QUALITY

Mactrac extruded aluminium shower tracks are supplied standard with:

- siliconed nylon glides for the smoothest operation
- all metal die cast brackets and ferrules for durability and strength
- stainless steel fastenings for strength and corrosion resistance
- towel hanger hook for towel or robe
- easy to follow installation instructions

CHOICE

Your customers can choose from standard straight or curved tracks, or we can custom make to their requirements (see under Special Sizes further on). And while satin silver and white are the most popular finishes, we can provide special colours to meet your customers' needs.

We can also supply folding shower seats for elderly or disabled use in wet areas (see our information on ShowerRest shower seats), and Guide Flexi-Fit grab rails are available in a range of sizes and colours.

BACK-UP

If you need Mactrac advice or information, call us free on 0800 838 725 to talk to our friendly customer services staff here at Tetral. They can tell you all you need to know about size, colour, custom making, price and delivery.

If you need to fax some sketches or plan drawings through (sometimes it's the easiest way), our number is 03 365 4979, or email us at sales@tetral.co.nz

At Tetral, we pride ourselves on setting the service standard. Be assured of quick and accurate assistance.

How to order Mactrac shower tracks

Size

The first thing to establish is whether you want a standard size track or one that is custom made.

STANDARD SIZE SHOWER TRACKS

Mactrac shower tracks are supplied in the following standard sizes. Remember that these tracks can be easily cut with a hacksaw to fit if the required track length is within these dimensions.

Curved tracks

- 900mm x 900mm
- 1200mm x 900mm (left hand or right hand)
- 1800mm x 900mm (left hand or right hand)
- 1200mm x 1200mm
- 1050mm x 800mm x 1050mm (U shape)

For the 1200mm x 900mm and 1800mm x 900mm, specify whether you need a left hand or a right hand set (see the diagrams). An easy way to remember this is that if the shorter length of the track is on the left, it's a left hand track and if it's on the right, it's a right hand track. Note that all curved tracks have a 300mm radius bend.

Straight tracks

- 900mm
- 1800mm

SPECIAL SIZE (CUSTOM MADE) SHOWER TRACKS

These tracks are made to order. For pricing purposes, we need to establish the required dimensions.

How to order Mactrac shower tracks (cont.)

Components

Straight shower curtain track sets

Each 900mm straight shower set is supplied complete with one towel hanger hook attached, two wall brackets, nine glides with acetyl hooks, stainless steel fixing screws and installation instructions.

Curved shower curtain track sets

Each curved shower set is supplied complete with two towel hanger hooks attached, one 600mm ceiling hanger rod, two wall brackets, 18 glides with acetyl hooks, stainless steel fixing screws and installation instructions. Hanger rods longer than 600mm are available as non standard components.

Other components

Where one end of the track can't join on to a wall, it can be neatly finished with an end cap bracket. In these cases, an extra hanger rod may be required. Talk to us about what you need.

In situations where there's a sloping ceiling, we have a specially designed bracket to make sure things stay on the level.

And if the walls the track is to be fixed on to are not square, whether by design or otherwise, our swivel wall bracket should be used.

If you have any questions about what you need to get the best result for your customer, please call us.

Colours

White, ivory, satin silver, bright silver and bright gold are the most popular colours.

We can also supply shower tracks in a wide range of powdercoat colours to match your customer's décor.
