Assure Lock[®] SL

Never worry about carrying around or losing your house keys again, simply lock and unlock your door with the sleek touchscreen keypad. Create unique PIN codes to share with your family and friends for ultimate convenience. The Assure Lock SL can be upgraded with a Yale Network Module to integrate seamlessly with your home automation or alarm system.

The Yale Assure SL lock is the newest addition to Yale Assure digital lock range. This sleek and modern touchscreen deadbolt allows homeowners to enjoy the convenience of 100% key free unlocking.

You'll never have to carry your keys again. Create unique PIN codes for friends and family and remove codes whenever you need to.

Works with your Smart Home

The Assure Lock SL can be upgraded with a Yale Network Module (available in Z-Wave Plus*, ZigBee* and iM1 for HomeKit) to integrate into most home automation systems so that you can control and monitor the lock from anywhere in the world.

*Modules are sold separately

Alarm Kit

Yale Alarm
App Upgrade

The Yale Alarm Kit is a home alarm system built with you in mind, allowing to arm and disarm your system via your Smartphone through the Yale Alarm App.

Download the Yale Alarm App for complete peace of mind and knowledge that your home is secure. You can check your home anytime, anywhere via the App, and you can receive alerts and notifications if the alarm is triggered.

In the unlikely event of server disconnection, the alarm system will continue to function (arm/disarm) using the supplied keypad accessory. Alarm event is notified by email, push notification event (iOS only) and SMS message. We offer 20 free SMS messages per account, after which additional SMS messages would be chargeable.

The Alarm Kit can be extended to include additional accessories including a Power Switch to turn home appliances on and off remotely (i.e. a lamp or radio), a PIR Video Camera to view 10 second video of inside your home. You can even add a Yale Smart Lock to your front door; controlling them all from your Yale Alarm App.

Set-Up Requirement: For use in home with broadband connection. Homes with a router required with one free wired network port.

Features

- Control via smartphone - View images of your home and arm/disarm your alarm anytime, anywhere
- 433MHz technology - Yale uses a frequency that is tightly controlled, meaning a clearer channel with less interference from other devices
- Pre-linked - Yale Alarms come with components already linked to the Smart Hub. This makes installing your alarm quick and easy
- Part arming - Set the alarm and secure downstairs while you move freely upstairs
- Easy to fit - There is no need to damage your décor, lift carpets or run cables. All components are self-contained and no wired connections are required between units
- Expandable - Add up to 40 devices to tailor the system to your home
- No monthly fee - Putting you in control and alerting you directly means there are no monthly fees
- Loud external (104db) and internal (94db) sirens
- Easy DIY installation

iOS 9 +

Android 4.2 +

Due to a continuous programme of development, the Yale App user interface for this product may differ in appearance.
