120L OIL & FUEL (HYDROCARBON) SPILL KIT

PRODUCT INFORMATION SHEET

Overview

SpillSmart 120L Oil & Fuel Spill Kit is a versatile, mid-capacity solution designed for rapid response to hydrocarbon spills. Equipped with hydrophobic absorbents and containment tools, it enables effective clean-up of oils, fuels and solvents on both land and water.

Features

- Designed for oil and fuel spills
- Absorbs hydrocarbons, repels water
- Mid-capacity spill response solution
- Includes FloorSweep, socks, pillows and pads
- Suitable for land and water applications
- Mobile wheelie bin for easy deployment

Description

SpillSmart 120L Oil & Fuel Spill Kit is engineered to provide a fast and effective response to medium-scale hydrocarbon spill incidents across industrial and commercial environments.

The kit contains a balanced range of high-performance absorbents including SpillSmart FloorSweep, pads, socks and pillows, allowing users to contain, control and absorb oils, fuels, solvents, grease and other hydrocarbon-based liquids.

Hydrophobic polypropylene absorbents selectively absorb hydrocarbons while repelling water, making them suitable for use on hard surfaces and for removing oil from water.

Supplied in a durable, high-visibility 120L wheelie bin, the kit can be easily positioned across a site and transported to spill locations when required.

By enabling efficient containment and clean-up, the kit helps minimise environmental impact, reduce clean-up time and support compliance with environmental duty of care obligations.

DESIGNED FOR:

- Oil and fuel spill response
- Workshops and industrial environments
- Mining and heavy industry
- Manufacturing facilities
- Areas where hydrocarbons are stored or handled
