

Heraeus

The complete system
for tooth isolation.

Ivory®

Available from Oraltec NZ Ltd

Phone 0508 478 222 / orders@oraltec.co.nz / www.oraltec.co.nz

IVORY® Rubber Dam

Made from natural latex, thoroughly washed in the manufacturing stage to reduce surface proteins. Ivory dam has extremely

high tear strength, reducing waste from tearing during application. The dam is thin and pliable, allowing easy placement in especially difficult areas. The bright blue or green tint increases visibility by its contrast.

Available in 6x6 or 5x5 (medium weight).

Labial Clamps

6

SHINY
MATTE

For labial cavities on centrals and cuspids.
For second bicuspid and second upper molars.

9^T

SHINY
MATTE

For labial cavities on all anterior teeth.

212

SHINY
MATTE

For labial cavities. Anterior cervical clamp.

212^{SA}

SHINY
MATTE

For odd-shaped anteriors and in situations where additional tissue retraction is needed.

Bicuspid Clamps

0°

SHINY
MATTE

For teeth that are elongated or have small necks.
High bow, small jaws.
Also available wingless - W0

00

SHINY
MATTE

For small lower anteriors and teeth set irregularly in arch. High bow, narrow jaws.

1°^T

SHINY
MATTE

General purpose upper.
Jaws fit curvature at gum line.
Also available wingless - W1

1A

SHINY
MATTE

Root clamp. Jaws slope downward, grasp roots of bicuspid, anteriors.

2°^T

SHINY
MATTE

General purpose lower. Same as #1, only jaws are flat so as not to impinge on tissue.
Also available wingless - W2

2A°^T

SHINY
MATTE

For bicuspid with large necks.
Broad jaws.
Also available wingless - W2A

27N*

SHINY
MATTE

Universal bicuspid clamp.
Jaws conform to curvature at gum line.
Available wingless only

- * Available wingless only
- Also available wingless
- T Also available with serrated jaws (Tiger clamps)
- A Slightly larger
- N No wing

Molar Clamps

3°
SHINY
MATTE

For small lowers.
Narrow, flat jaws so as not to impinge in tissue.
Also available wingless - W3

4°
SHINY
MATTE

For small uppers. Narrow jaws designed to fit necks of round-shaped teeth.
Also available wingless - W4

5°
SHINY

For large uppers.
Jaws conform to curvature at gum line.
Also available wingless - W5

7°
SHINY
MATTE

General purpose lower. Medium-sized bow and jaws.
Flat jaws. For teeth which tend to be square in form.
Also available wingless - W7

7A
SHINY

For large lowers. Same as #7, only larger.
Large bow, broad jaws.

8°
SHINY
MATTE

General purpose upper. For round upper teeth.
Jaws fit curvature at gum line, to prevent rotating.
Also available wingless - W8

8A°
SHINY
MATTE

For upper, lower molar roots. Four-point jaws grasp root at corners. Jaws set dam beneath gum line when released. Also available wingless - W8A

10
SHINY

For small molars with short crowns. Buccal jaw broader than lingual. (10=right; 11=left)

11
SHINY

For small molars with short crowns. Buccal jaw broader than lingual. (10=right; 11=left)

12A
SHINY
MATTE

For all lowers, particularly third molars and partially erupted teeth. Available with serrated jaws only. (12A= right; 13A= left)

13A
SHINY
MATTE

For all lowers, particularly third molars and partially erupted teeth. Available with serrated jaws only. (12A= right; 13A= left)

14°^T
SHINY
MATTE

For partially erupted, undersized, round teeth or for teeth sloping from gum line. Small bow.
Also available wingless - W14

14A°
SHINY
MATTE

Same as #14, only larger in every way.
Also available wingless - W14A

26
SHINY

For small lower molars.

26N*
SHINY
MATTE

Universal upper with festooned jaws.
Available wingless only

27
SHINY

For large molar distal cavities.

28N*
SHINY

General purpose lower molar clamp.
Available wingless only

56°^T
SHINY
MATTE

For all large molars.
Also available wingless - W56
56 and W56 are SHINY, 56T is MATTE

IVORY® Rubber Dam Kits

Complete Kit

- (1) Box 6x6 Blue Rubber Dam
- (1) 6x6 Marking Template
- (1) 6 Inch Frame
- (8) Most Popular Clamps:
0 2A 8A 14 2 7 9 14A
- (1) Clamp Forceps
- (1) Rubber Dam Punch

8 Clamp Starter Kit

- One each of the following clamps:
0 2A 8A 14 2 7 9 14A
- Available in Shiny or Matte Finish

Accessories

IVORY® Punch

This precision instrument is made from high quality stainless steel. The unique floating plunger strikes all edges of the cutting disc evenly, guaranteeing a perfect, tear-resistant hole every time. The cutting disc rotates through a range of 6 hole sizes, providing the correct opening for the smallest anterior tooth to the largest molar.

IVORY® Forceps

The Ivory forceps are made from high grade stainless steel, which will assure many years of use. The forceps will reach around the bow of any clamp without tilting, which is especially important when reversing a clamp. The straight head design allows easy gripping and placement of any clamp size.
