

Suction Adapter AdaptaPal

Ergonomic flexible adapters for saliva ejector and aspirator

Ergonomics

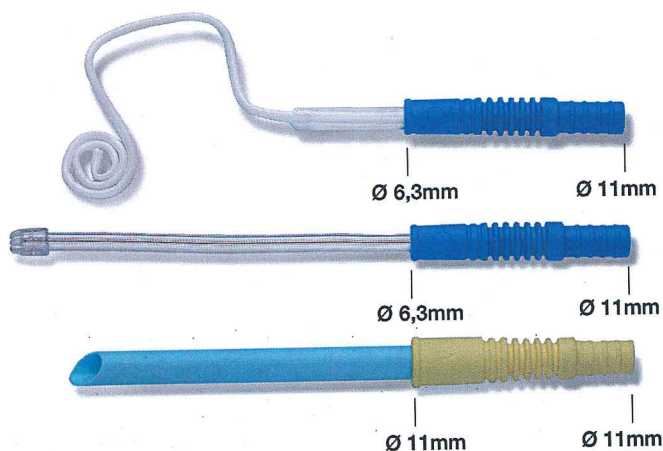

AdaptaPal eliminates strain on shoulder, neck, elbow, arm and wrist as you avoid manoeuvring heavy, inflexible suction hose.

Easy Access

AdaptaPal bends easily to get a good access from all angles facilitating better control. Working in a more relaxed way makes the patient feel more comfortable.

Improved Hygiene

AdaptaPal serves as barrier shield because you hold AdaptaPal instead of the aspirator hose. AdaptaPal is easy to remove for cleaning.

Recommendations

- Change between each patient to achieve optimal hygiene.
- Use up to 30 times (after approx. 30 times in washer disinfectant/autoclave cracks may form where bacteria accumulate).

Product data

- Material: SEBS-polymer.
- Blue: 6.3/11mm.
- Yellow: 11/11mm.
- Can be disinfected in washer disinfectant and autoclaved to a maximum 121 degrees.
- Package of 4 pcs.
