

## “ADHESION WHEN YOU NEED IT.”

The reliable temporary eugenol-free cement  
with calcium hydroxide

- Safe adhesion
- Pulp protection
- Bacteriostatic

# Provicol®

# Provicol®

**INTERNATIONALLY PROVEN. FOR YEARS.**

## Indications

Provicol is a eugenol-free temporary cement with calcium hydroxide for temporary luting of inlays, onlays, crowns, bridges, partial crowns, attachments, posts, and for temporary filling of small cavities.

## Advantages

- Tough-elastic consistency for safe adhesion
- Calcium hydroxide
  - Supports the formation of secondary dentine
  - Bacteriostatic effect
- Eugenol-free: no allergy potential
- Ideal before adhesive luting with resin cements

## Additional advantages of Provicol® QM / Provicol® C:

- Fast application
- Bubble-free perfect mixing
- Direct application

## Available in 3 versions:

- Provicol QM in the practical QuickMix syringe
- Provicol C in cartridges
- Provicol in tubes for hand mixing
