

SAFETY DATA SHEET

1. Identification

Product identifier	Ultra 2-Step Maxcut Comp	ound	
Other means of identification			
Product Code	1390		
Recommended use	Automotive Detailing		
Recommended restrictions	None known.		
Manufacturer/Importer/Supplier/	Distributor information		
Manufacturer Company name	Presta Products		DISTRIBUTOR IN NEW ZEALAND: Pacer - Car Clean Products NZ Ltd
Address	361 Fairview Ave Barberton, OH 44203 United States		33 Ha Crescent, Wiri Auckland, New Zealand Tel: +64 9 25000 91
Telephone	Phone Fax	800-253-2526 330-777-8317	Fax: +64 9 25000 92 Email: sales@pacer.co.nz
Website	www.prestaproducts.com		Web: www.pacer.co.nz
E-mail	msdsinfo@malcopro.com		24hr Emergency Assistance in New Zealand:
Contact person	Technical Department		National Poison Control Center:
Emergency phone number	Phone	1-800-424-9300	0800 Poison [764 766]
2. Hazard(s) identification			
Physical hazards	Flammable liquids		Category 4
Health hazards	Acute toxicity, oral		Category 5
	Acute toxicity, inhalation		Category 5

Category 2A

Category 2

Serious eye damage/eye irritation

. exposure

Not classified.

Not classified.

Specific target organ toxicity, repeated

- Environmental hazards OSHA defined hazards
- Label elements

Signal word	Warning
Hazard statement	Combustible liquid. May be harmful if swallowed. Causes serious eye irritation. May be harmful if inhaled. May cause damage to organs through prolonged or repeated exposure.
Precautionary statement	
Prevention	Keep away from flames and hot surfaces No smoking. Do not breathe mist/vapors. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Response	IF INHALED: Call a POISON CENTER or doctor/physician if you feel unwell. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. In case of fire: Use appropriate media to extinguish.
Storage	Store in a well-ventilated place. Keep cool.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

3. Composition/information on ingredients

Chemical name	Common name and synonyms	CAS number	%
dialuminum;oxygen(2-)		1344-28-1	20 - < 30
Solvent Naphtha (Petroleum), Medium Aliph.		64742-88-7	10 - < 20
KEROSENE		8008-20-6	5 - < 10
propane-1,2,3-triol		56-81-5	5 - < 10
4-nonylphenol, Branched, Ethoxylated		127087-87-0	1 - < 3
tetrasodium;phosphonato phosphate		7722-88-5	< 0.1
Other components below reportab			10 - < 50

Other components below reportable levels

40 - < 50

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a poison center or doctor/physician if you feel unwell.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Prolonged exposure may cause chronic effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.
5. Fire-fighting measures	

Suitable extinguishing media	Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	Combustible liquid.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.
	Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling Keep away from open flames, hot surfaces and sources of ignition. Do not breathe mist/vapors. Do not taste or swallow. Avoid contact with eyes. Avoid prolonged exposure. When using, do not eat, drink or smoke. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities Keep away from heat, sparks and open flame. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

US. OSHA Table Z-1 Permissible Exposure Limits (PEL) for Air Contaminants (29 CFR 1910.1000)

dialuminumcoxygen(2-) (CAS 1344-28-1) PEL 5 mg/m3 Respirable fraction. propane-1,2,3-triol (CAS 58-81-5) PEL 5 mg/m3 Respirable fraction. US. 9. Physical and chemical properties		hygiene measures, such as washing	g after handling the material and	before eating, drinking, and/or
	. Physical and chemical	properties		

Appearance	Cream. Viscous.
Physical state	Liquid.
Form	Liquid.
Color	White

Odor	Bubble gum.		
Odor threshold	Not available.		
pH	8.8		
Melting point/freezing point	2777.02 °F (1525.01 °C) estimated		
Initial boiling point and boiling range	2249.32 °F (1231.84 °C) estimated		
Flash point	145.0 °F (62.8 °C)		
Evaporation rate	Not available.		
Flammability (solid, gas)	Not applicable.		
Upper/lower flammability or exp	losive limits		
Explosive limit - lower (%)	Not available.		
Explosive limit - upper (%)	Not available.		
Vapor pressure	0.04 hPa estimated		
Vapor density	Not available.		
Relative density	Not available.		
Solubility(ies)			
Solubility (water)	Not available.		
Partition coefficient (n-octanol/water)	Not available.		
Auto-ignition temperature	597.61 °F (314.23 °C) estimated		
Decomposition temperature	Not available.		
Viscosity	200000 cP		
Viscosity temperature	68 °F (20 °C)		
Other information			
Density	10.36 lbs/gal		
Explosive properties	Not explosive.		
Flammability class	Combustible IIIB estimated		
Oxidizing properties	Not oxidizing.		
VOC	16.95 % w/w By weight,VOC Compliant		
10. Stability and reactivity			
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.		
Chemical stability	Material is stable under normal conditions.		
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.		
Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Contact with incompatible materials.		
Incompatible materials	Strong oxidizing agents. Chlorine.		
Hazardous decomposition products	No hazardous decomposition products are known.		
11. Toxicological information			

Information on likely routes of exposure

	Inhalation	May be harmful if inhaled.
Skin contact No adverse effects due to skin contact are expected.		No adverse effects due to skin contact are expected.
	Eye contact	Causes serious eye irritation.
	Ingestion	May be harmful if swallowed.
	Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

Information on toxicological effects

Acute toxicity May be harmful if inhaled. May be harmful if swallowed.

Components	Species		Test Results
dialuminum;oxygen(2-) (CAS 134	14-28-1)		
Acute			
Oral LD50	Rat		> 5000 mg/kg
KEROSENE (CAS 8008-20-6)	Nat		> 5000 mg/kg
Acute			
Dermal			
LD50	Rat		> 2000 mg/kg
Inhalation LC50	Rat		> 5200 mg/m3, 4 Hours
propane-1,2,3-triol (CAS 56-81-5	5)		
<u>Acute</u>			
Inhalation	Det		5 570 m m/m 0 4 H m m
LC50	Rat		> 570 mg/m3, 1 Hours
Oral LD50	Rat		5.57 g/kg
Skin corrosion/irritation	Prolonged skin	ontact may cause temporary irritati	
Serious eye damage/eye	Causes serious		
irritation			
Respiratory or skin sensitizatio			
Respiratory sensitization	Not a respirator		<i>1</i>
Skin sensitization Germ cell mutagenicity	•	ot expected to cause skin sensitiza	ation. nents present at greater than 0.1% are
Germ cen mutagementy	mutagenic or ge		nents present at greater than 0.1% are
Carcinogenicity	Not classifiable	as to carcinogenicity to humans.

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)		
propane-1,2,3-triol	-1.76	
Mobility in soil	No data available.	
Other adverse effects	The product contains volatile organic compounds which have a photochemical ozone creation potential.	

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.		
Local disposal regulations	Dispose in accordance with all applicable regulations.		
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.		
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).		
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.		

14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not established. Annex II of MARPOL 73/78 and the IBC Code

15. Regulatory information

US federal reg	ulations	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.			
Toxic Sub	Toxic Substances Control Act (TSCA)		One or more components of the mixture are not on the TSCA 8(b) inventory or are designated "inactive".		
TSCA	Section 12(b) Exp	ort Notification (40 CF	R 707, Subpt. D)		
N	ot regulated.				
TSCA	Chemical Action	Plans, Chemicals of Co	ncern		
	4-nonylphenol, Branched, Ethoxylated (CAS 127087-87-0)		Nonylphenol (NP) and Nonylphenol Ethoxylates (NPEs) Action Plan		
CERCLA H	lazardous Substa	nce List (40 CFR 302.4))

Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act Not regulated.

(SDWA)

FEMA Priority Substances Respiratory Health and Safety in the Flavor Manufacturing Workplace

propane-1,2,3-triol (CAS 56-81-5)

Other Flavoring Substances with OSHA PEL's

US state regulations

US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))

4-nonylphenol, Branched, Ethoxylated (CAS 127087-87-0) KEROSENE (CAS 8008-20-6)

California Proposition 65

California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins. For more information go to www.P65Warnings.ca.gov.

International Inventories

Country(s) or region	Inventory name	On inventory (yes/no)*
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	No
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	Yes

*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s) A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
