## **PROPERTIES:**

Dark green liquid, flash point 36°C, emulsifies with water.

#### **Available Sizes:**

ED4

ED20

ED9

#### DANGER

H224 Extremely flammable liquid and vapour

H302 Harmful if swallowed

H312 Harmful in contact with skin

H304 May be fatal if swallowed and enters airways

ENGINE

Engine Cleaning

DANGER: Acute oral LD50 (rat) expected to be above 2000 mg/kg. Aspiration into the lungs may cause chemical pneumonitis, which can be fatal. Not irritating to eyes but may cause transitory pain. Not a skin sensitizer. Prolonged contact can cause defatting which can lead to dermatitis. May cause headache, dizziness, nausea and narcosis if inhaled.

SAFETY PRECAUTIONS: Keep closed when not in use. Do not eat, drink or smoke whilst using. Avoid breathing vapour and prolonged skin contact. Use with adequate ventilation. When using wear nitrile gloves, goggles and mask. Store in original container away from food. Dispose of empty container in a safe manner.

#### FIRST AID:

Eye Flush with water for at least 15 minutes. Seek medical attention if problems persist Wash thoroughly with soap and water

Ingestion Do not induce vomiting. Give nothing by mouth. Seek medical attention immediately

Inhalation Remove to fresh air. If breathing is difficult, seek medical attention immediately If medical advice is needed have the product container/label at hand. In an emergency phone the National Poison Centre. (24 hrs): 0800 POISON[764 766].

UN 1993. Class 3. PG III. Hazchem 3[Y].

## OUR VISION AND MISSION

To be the leading value-based provider to the market. We have a dedicated team to achieve excellence for our customers and a philosophy of total quality. We conduct business and create relationships in an ethical and sustainable manner with customers, our community and the environment. The value we provide our customers is the opportunity to increase profit through lower cost solutions that do not sacrifice quality or service.

#### **ENVIRONMENTAL POLICY**

Pacer is committed to leading the industry in minimising the impact of its activities on the environment. The key points of our strategy to achieve this are: Purpose built premises utilising energy efficient technology and rain water collection. Actively promoting recycling both internally and amongst our customers and suppliers. To develop and promote a product range to minimise the environmental impact of our products. We are constantly evaluating and looking at substituting to a more environmentally friendly composition of raw materials for our products. To meet or exceed all the environmental legislation that relates to our industry.

#### DISCLAIMER

The technical data and information provided, including the recommendations for applying & using our products, is given in good faith based on our current knowledge and experience and is believed to be accurate when applied under 'normal' conditions. In practice, the materials, surfaces or conditions are so varied that no warranty regarding the working results or any liability or guarantee can be inferred either from this information nor from a verbal consultation. It is recommended that the user makes his or her own tests to determine the suitability of the product for their own requirements.
