

C5 ENVIRO DEGREASER CLEANER

TECHNICAL DATA SHEET

DESCRIPTION:

Cleantastic™ Enviro Degreaser Cleaner is a multi-purpose, heavy-duty degreaser to remove grease and grime with minimal effort. Ideal to use around deep fryers, kitchen floors, range hoods, the BBQ etc. It is a less hazardous water based blend ideal as a substitute for solvents and corrosive caustic cleaning products. This is a professional grade product for use by professional personnel - not for use by the general public.

DIRECTIONS:

Undiluted: heavy duty cleaning . Diluted **RATIO 1:4** with water to clean walls, ceilings, floors, baths, basins, benches, stoves, fridges etc. All detergents have an effect on the environment. Always use the correct dose for maximum efficiency and minimal environmental impact.

APPLICATIONS:

Heavy duty grease and grime removal.

PROPERTIES:

Purple liquid with pleasant fragrance. pH 8

OUR VISION AND MISSION

Pacer is committed to leading the industry to the market. We have a dedicated team to achieve excellence for our customers and a philosophy of total quality. We conduct business and create relationships in an ethical and sustainable manner with customers, our community and the environment. The value we provide our customers is the opportunity to increase profit through lower cost solutions that do not sacrifice quality or service.

ENVIRONMENTAL POLICY

Pacer is committed to leading the industry in minimising the impact of its activities on the environment. The key points of our strategy to achieve this are: purpose built premises utilising energy efficient technology and rain water collection. Actively promoting recycling both internally and amongst our customers and suppliers. To develop and promote a product range to minimise the environmental impact of our products. We are constantly evaluating and looking at substituting to a more environmentally friendly composition of raw materials for our products. To meet or exceed all the environmental legislation that relates to our industry.

DISCLAIMER

The technical data and information provided, including the recommendations for applying & using our products, is given in good faith based on our current knowledge and experience and is believed to be accurate when applied under 'normal' conditions. In practice, the materials, surfaces or conditions are so varied that no warranty regarding the working results or any liability or guarantee can be inferred either from this information nor from a verbal consultation. It is recommended that the user makes his or her own tests to determine the suitability of the product for their own requirements.
