

SAFETY DATA SHEET

Section 1. Identification of the material and the supplier

Product: Truck Curtain Side Cleaner
Product Code: TCSC
Product Use: Heavy-duty cleaner for removing road grime, dirt, mould, and stains from truck curtain sides.
New Zealand Supplier: Car Clean Products NZ Limited
Address: 33 Ha Crescent, Wiri,
Auckland 2104
New Zealand
Telephone: 09 25000 91
Email: sales@pacer.co.nz

Emergency Telephone Number: 0800 POISON (0800 764 766)

Date of MSDS Preparation: September 2026

Section 2. Hazards Identification

Classification: Skin corrosion/irritation Cat 1
Hazardous to the aquatic environment, long-term hazard Cat 1

GHS Signal Word: DANGER

GHS Hazard Statements: H314 Causes severe skin burns and eye damage
H410 Very toxic to aquatic life with long lasting effects

GHS Pictogram:

Precautionary Statements:

Prevention:

- P260 Do not breathe dust/fume/gas/mist/vapors/spray.
- P264 Wash hands thoroughly after handling.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P273 Avoid release to the environment.

Response:

P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

SAFETY DATA SHEET

- P302+P361+P354 IF ON SKIN: Take off Immediately all contaminated clothing. Immediately rinse with water for several minutes.
- P363 Wash contaminated clothing before reuse.
- P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P316 Get emergency medical help immediately.
- P305+P354+P338 IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
- P391 Collect spillage.
- Storage:
- P405 Store locked up.
- Disposal:
- P501 Dispose of contents/container in accordance with local, regional, national, and international regulations.

Section 3. Composition / Information on Ingredients

Ingredients	Proportion (% mass)	CAS Number
Sodium Hypochlorite	10-60	7681-52-9
Sodium Hydroxide	1-5	1310-73-2
Surfactant Blend	< 5	Proprietary
Other Ingredients	Balance	Proprietary

Section 4. First Aid Measures

Routes of Exposure:

- Eye** Immediately flush eyes with water for at least 15 minutes, holding eyelids open. Remove contact lenses if present and easy to do. Seek immediate medical attention.
- Skin** Remove contaminated clothing. Wash affected skin thoroughly with plenty of water for at least 15 minutes. Seek medical attention if irritation, burns, or pain occur.
- Ingestion** Rinse mouth with water. Do not induce vomiting. Give small amounts of water to drink if conscious. Seek immediate medical attention or contact a Poison Centre.
- Inhalation** Remove person to fresh air and keep comfortable for breathing. Seek medical attention if respiratory irritation or discomfort persists.

SAFETY DATA SHEET

Section 5. Fire Fighting Measures

Suitable Extinguishing media	Use water spray, foam, dry chemical, or CO ₂ .
Fire and Explosion hazards	Not combustible. May release toxic chlorine-containing fumes when heated or in contact with acids.
Fire Fighting Instructions	Wear SCBA and protective clothing. Cool containers with water spray and prevent runoff from entering drains or waterways.
	Hazchem Code 2X

Section 6. Accidental Release Measures

Land Spill or Leaks	Contain spill, prevent entry into drains and waterways, absorb with inert material, and collect for disposal. Wear appropriate protective equipment.
Water	Prevent contamination of waterways. Contain and recover where possible. Notify relevant authorities if a significant release enters the environment.

Section 7. Handling and Storage

Handling Advice:	Avoid contact with skin, eyes, and clothing. Do not breathe mist or vapour. Use only in well-ventilated areas. Do not mix with acids or other chemicals.
Storing Procedures:	Store in a cool, dry, well-ventilated area away from direct sunlight, acids, and incompatible materials. Keep containers tightly closed when not in use.

Section 8 Exposure Controls / Personal Protection

Engineering Controls:	Ensure adequate ventilation. Provide access to eyewash facilities and clean water for emergency rinsing.
Personal Protective Equipment:	Wear chemical-resistant gloves, safety glasses or goggles, and protective clothing. Use respiratory protection if ventilation is inadequate or mist is generated.

Section 9 Physical and Chemical Properties

SAFETY DATA SHEET

Appearance	Clear pale yellow liquid
Odour:	Chlorine-like
Odour threshold	Not determined
pH	~12
Melting/Freezing point	Not determined
Initial boiling point/range	Approximately 100°C
Flash point	Not applicable
Flammability	Not flammable
Upper/Lower flammability limit	Not applicable
Vapour pressure	Not determined
Vapour density	Not determined
Relative density	1.08 - 1.12
Solubility in water, % mass:	Completely soluble
Partition coefficient	Not determined
Auto-ignition temperature	Not applicable
Decomposition temperature	Not determined
Kinematic viscosity	Similar to water
Particle characteristics	Not applicable (liquid)

Section 10. Stability and Reactivity

Chemical Stability	Stable under normal conditions of storage and use. Slowly decomposes on prolonged exposure to heat, sunlight, and contaminants.
Conditions to Avoid and Incompatibility	Avoid heat, direct sunlight, acids, ammonia, reducing agents, and incompatible metals such as aluminium, zinc, and galvanised steel.
Hazardous Decomposition Products:	Chlorine gas, hydrogen chloride, and other irritating or toxic fumes may be released during decomposition or when mixed with acids.

Section 11 Toxicological Information

Likely Routes of	Skin contact, eye contact, ingestion, and inhalation of mist.
------------------	---

SAFETY DATA SHEET

Exposure:

Eye Contact:	Causes severe eye damage. May result in pain, redness, burns, and possible permanent injury.
Skin Contact:	Causes severe skin burns. Prolonged or repeated contact may result in irritation, redness, and tissue damage.
Ingestion:	Harmful if swallowed. May cause burns to the mouth, throat, oesophagus, and stomach.
Inhalation:	Mists or vapours may irritate the nose, throat, and respiratory tract. High concentrations may cause coughing and breathing discomfort.
Acute Toxicity:	Not classified based on available information.
Skin Corrosion/Irritation:	Causes severe skin burns.
Serious Eye Damage/Irritation:	Causes serious eye damage.
Symptoms of Exposure:	Pain, redness, burns, blistering, severe eye irritation, watering of the eyes, coughing, throat irritation, nausea, and stomach discomfort.

Section 12. Ecotoxicological Information

Environmental Precautions:

Ecological Toxicity:	Very toxic to aquatic life with long lasting effects. Product contains sodium hypochlorite, which may be harmful to aquatic organisms even at low concentrations.
Environmental Fate:	
Soil	May react with organic matter and gradually degrade. Large releases may adversely affect soil microorganisms and vegetation.
Water	May cause significant harm to aquatic organisms. Hypochlorite will gradually decompose in water, but releases can result in acute and long-term environmental effects.
Environmental Exposure Limits:	EEL _{water} Not set.

Section 13. Disposal Considerations

SAFETY DATA SHEET

Disposal Methods Dispose of contents and container in accordance with local regulations. Do not discharge to drains, waterways, or the environment.

Section 14 Transport Information

Road, Rail, Marine and Air Transport:

UN No	1791
DG Class	8
Packing Group	III
Shipping Name	HYPOCHLORITE SOLUTION

Section 15 Regulatory Information

HSNO approval code: HSR002526 Cleaning Products (Corrosive) Group Standard 2020

Section 16 Other Information

Supplied in 4lt, 20lt. Code: TCSC4, TCSC20
Revision: 1.0

The information herein is given in good faith, but no warranty, express or implied is made.

Please contact the New Zealand proprietor, Car Clean Products NZ Limited,
Phone: 09 250 0091, if further information is required.

SAFETY DATA SHEET TRUCK CURTAIN SIDE CLEANER

PURPOSE:

Truck Curtain Side Cleaner is a powerful cleaning solution specially formulated to remove road grime, traffic film, diesel soot, dirt, mould, mildew, and other stubborn contaminants from truck curtain sides and transport fabrics. Its fast-acting formula helps restore a clean, bright, and professional appearance while lifting built-up soiling and environmental staining. Suitable for use on truck curtains, trailer covers, tarpaulins, and other heavy-duty fabric surfaces.

DIRECTIONS:

Remove any loose dust or debris before use. Apply Truck Curtain Side Cleaner directly to the affected area and allow 5 to 10 minutes contact time to penetrate mould, mildew, stains, and odours. Rinse thoroughly with clean water after treatment. For heavily affected areas, repeat application if necessary. Always test on an inconspicuous area first to ensure colourfastness.
