X-Pad +™

Paper Cushioning System

THINKING OUTSIDE THE MACHINE™

Auto output and auto cut for cushioning

The ultra compact design generates the standard industrial pad size with no trade off in protection and performance has redefined the standard of paper packaging systems and makes cushioning packaging operations never been so easy before.

FEATURES & BENEFITS

Compact: Smallest footprint and lightest in industry

Ready Load™ : Simple and easy paper loading with X-Fold paper

Flexible: Various configurations allow it to fit with workstation easily

Versatile: Four operation modes

Fast: High production speed up to 0.9m/s

User friendly : Easy to use touch screen operation

Efficiency: Easy head angle adjustment, easy Jam Release Design and paper splicing for multiply paper

Easy maintenance: Modules design for easy and speedy set up, maintenance and services

SPECIFICATIONS

Speed:	0.2m/s to 0.9m/s
Certifications	US : cTUVus, FCC EU: CE, EMC, RoHS
Power Consumption	50 W (Standby mode), 450 W (Operation mode)
Operation features:	4 operation modes
	Foot pedal operation (one or two)
	Paper splicing for continuous operation
	Easy head angle adjustment

PAPER OPTIONS

Ply	2	2	1	1
Basic Weight	70g/70g	50g/70g	70g	90g
Size(Wx L)	762mm x 200m/300m	762mm x 350m	762mm x 360m	762mmx 300m

ECO FRIENDLY

We use recycled and biodegradable paper to stay true to one of our main missions: environmental sustainability and protection of our planet.

CONFIGURATIONS

Model	X-Pad+		
Type of stand	Floor Stand	Table Stand	Mobile
Size(cm)	L65x W63xH155	L93x W53xH125	L65x W50xH98
Weight(kg)	87	79	75

X-Pad+ Mobile for easily demonstration in clients' warehouse

Ready-Load speeds paper feed, splicing reduces changeovers, and both increase productivity
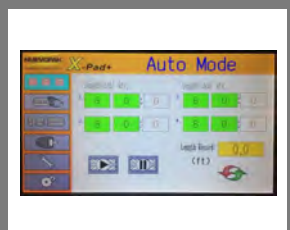

Digital touch screen for simple mode selection
