Additional Information:

Carbon black and Crystalline Quartz are only suspected human carcinogens as a respirable solid. Because this product is in a liquid state, and remains in a liquid state even after application, solid particles of carbon black and crystalline quartz are not expected to become respirable during normal conditions of use or exposure, and therefore the product itself does not warrant classification as a carcinogen. Note that care should be taken to maintain the product in a liquid state at all times, by avoiding direct heat, sunlight, etc., as well as any activities that may liberate respirable solids from the applied surface, such as cutting and sanding.

Biological limit values:

No biological exposure limits noted for the ingredient(s).

Information on monitoring procedures:

Monitoring of the concentration of substances in the breathing zone of workers or in the general workplace may be required to confirm compliance with an OEL and adequacy of exposure controls.

Biological monitoring may also be appropriate for some substances.

Appropriate engineering controls:

Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling.

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.

Personal protection equipment

Eye and face protection:

Safety goggles or glasses, or appropriate eye protection.

Skin and body protection:

Select glove material impermeable and resistant to the substance.

Wear appropriate clothing to prevent any possibility of skin contact.

Respiratory protection:

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

General hygienic measures:

Avoid contact with skin, eyes and clothing.

Wash hands before breaks and at the end of work.

Wash contaminated clothing before reuse.
