

Introducing

Latest generation of Veta-Gel

- A multi-layer honeycomb Technology (World patented)
- Air pumping by an independent Hexagonal Pillar
- Innovative Ergonomic Seating Cushion
- Smooth Circulation
- Perfect Fitting and Pleasant Seating
- Made for dispersing pressure in long time
- NST-100 non-slip Technology
- Safe oil used for cosmetic + special Gel Elastomer
- Easy to wash
- High Durability at high temperature (70 °C)

Smooth Circulation

Distribute the body weight pressure on the hips and thighs to maintain a long and comfortable sitting posture.

FR: Répartie la pression du corps de façon optimale afin de maintenir une assise confortable.
 DE: Verteilt das Körpergewicht, um ein langes Sitzen in einer bequemem Haltung zu ermöglichen.
 ES: Se dispersa la presión de las caderas y los muslos para no perturbar la circulación sanguínea y le permite sentarse por más tiempo y sentirse cómodo.

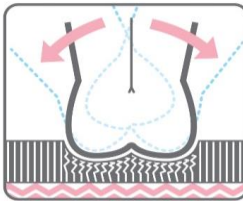

Multi-Layer Honeycomb Technology

World patented Technology
 FR: Technologie Brevetée mondialement
 DE: Weltweit patentierte Technologie
 ES: La tecnología patentada mundialmente

Vetigel

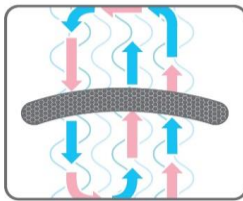

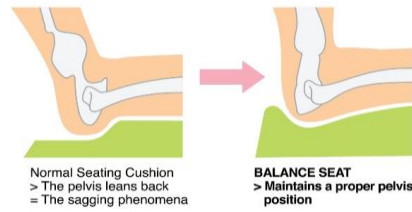

Made of polymer material used in Cosmetics, Vetigel is 99.9% Antibacterial and non-skin irritating.
 FR: Fait à partir de polymères utilisés dans la cosmétique, le Vetigel est 99.9% antibactérien et non irritante pour la peau.
 DE: Hergestellt mit Polymermaterial, das in der Kosmetik verwendet wird. Das Vetigel ist 99.9% antibakteriell und nicht hautreizend.
 ES: El Veta-Gel es 99.9% antibacterial, está hecho con el material polímero usado en gel cosmético para la piel.

Perfect Fitting

Excellent elasticity to allow best ergonomic seating position and to absorb vibration.

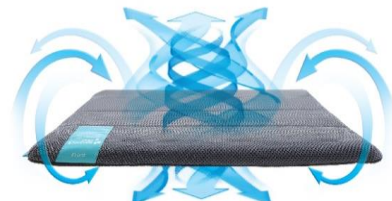

FR: L'élasticité excellente du Vetigel permet une circulation de l'air dans chaque "Aircell" à chaque mouvement, offrant une excellente perméabilité.
 DE: Ausgezeichnete Elastizität bietet ein ergonomisches Sitzen und absorbiert Vibrationen.
 ES: Gracias a la alta elasticidad y restauración de Vetigel, el cuerpo se mantiene unido con el Balanceseat y la elasticidad absorbe impactos y vibraciones.

Pleasant Seating

Vetigel double layer structure offers excellent breathability. Air circulates in and out in each "Aircell" at each movement.

FR: La structure doublée du Vetigel permet une circulation de l'air dans chaque "Aircell" à chaque mouvement, offrant une excellente perméabilité.
 DE: Die Doppelschichtstruktur von Vetigel ermöglicht bei jeder Bewegung die Luftzirkulation in jeder Luftkammer und bietet somit eine ausgezeichnete Durchlüftung.
 ES: Cada cámara de aire absorbe y descarga por sus movimientos ligeros para aumentar la permeabilidad al aire con una malla de aire transpirable y ofrece una sensación de comodidad placentera.

NST-1000 Non-slip Technology

The Balance Seat has anti-slip property allowing comfort with extended use.

FR: Le Balance Seat est anti-glisse, garantissant un confort d'assise sur une longue durée.
 DE: Der Balance Seat ist rutschfest, damit ist ein bequemes Sitzen für längere Zeit garantiert.
 ES: La tecnología antideslizante "NST - 1000" aplicada en Balanceseat permite una postura óptima.

Durable

Not easily torn and can withstand temperature up to 70°C.

FR: Ne se déchire pas et résiste aux hautes températures jusqu'à 70°C.
 DE: ZerreiBfest und widerstandsfähig bei Temperatur bis zu 70°C.
 ES: Es durable y termoestable de alta temperatura de hasta 70°C.

WARRANTY

- This product has been subject to strict quality control, process control standards and inspections.
- Please check handling precautions and washing methods of the product before washing.
- If there is a problem with the quality of the product, please contact the retailer or local distributor, with warranty information and receipt.
- Warranty for this product is one year from the date of purchase.
- Damages caused by consumer are not refunded.

PRECAUTIONS

- Excessive friction on the surface of the cushion may cause the cushion to degrade (break in stream)
- Do not squeeze/twist after washing. Place on flat surface to dry naturally.
- Use laundry net when washing. Do not soak for a long time in detergent, as product can deteriorate.
- If used in temperature higher than 80°C or in extreme low temperatures, the product can warp.
- Do not store in direct sunlight. Do not use in sauna.

PRECAUTIONS

- If a heavy object is placed on the cushion when the cushion has been in a hot vehicle, the cushion might warp.
- Due to the nature of the oil, use the cushion without cover can cause discoloration. Do not use cushion outside its intended use.
- FR: Pour les précautions d'utilisations et information garantie, se reporter à l'étiquette du produit.
- DE: Für die Gebrauchsanweisung und Garantieinformationen, siehe Produktetikett.
- ES: La apariencia del producto puede deformarse si deja algún objeto pesado sobre la almohadilla en el vehículo con temperatura interior alta.

Product Information

Dimensions:
 M: 1.15kg (±5%), 430mm x 415mm x 25mm (±5mm)
 L: 1.30kg (±5%), 480mm x 420mm x 25mm (±5mm)
 Material:
 Top Cover Fabric: Polyamide 44%, Polyester 5%, Polyurethane 1%
 Bottom Cover Fabric: Polyester 32%, Polysiloxanes 18%
 Manufacturing date: Marked separately
 Designed by: Bullsone Co.,Ltd.
