

X-XTRA IRON

6 - 0 - 0

With 9% CHELATED IRON

BENEFITS

High chelated iron and low nitrogen allows for fast green up, with no surge growth.
 Provides 100% soluble iron in an immediately available form for both foliar and root applications.
 Corrects iron deficiency overnight.
 Compatible with plant growth regulators.
 Can be safely tank mixed with a wide range of other fertilisers and chemicals.
 Compatible with herbicides and pesticides.

FEATURES

X-Xtra Iron Chelate provides 100% soluble iron in an immediately available form for both foliar and root applications. It is formulated by a unique Iron / Nitrogen complex that converts the iron to a soluble form, which will stimulate fast green up with no flush growth. **X-Xtra Iron** contains essential nutrients for photosynthesis: Iron, Nitrogen and Sulphur. **X-Xtra Iron** is amine compatible and can be used with herbicides and pesticides. **X-Xtra Iron** can be used for regular turf maintenance to enhance

rich green colour and promote strong root systems for high traffic areas and stress conditions. **X-Xtra Iron** can be used on turf, tree and ornamentals for correction of iron deficiencies / chlorosis.

FOR USE

Turf: Golf greens, Tees, Fairways, Athletic fields, Cricket pitches and Lawns. Ornamentals: Nursery, Trees, Shrubs Use all tank mix solution within 6 hours.

GUARANTEED ANALYSIS

Total Nitrogen (N)	6%
6% Urea N	
Sulphur (S) combined	4%
Iron (Fe)	9% Chelated
Derived from: Technical grade low Biuret Urea, Ferrous sulphate. Chelating agent: Citric acid	
Pack Size	10 L or 110 L or 1000L
Weight per litre	1.34 Kg
Each Litre Contains 0.13kg Iron	

MIXING

Use quality buffers to enable blending with acidic and alkaline material. Dilute **X-Xtra Iron** with water first, then add other products to mix in this order:

1. Wettable powders
2. Flow-ables
3. Water solubles
4. Surfactants
5. Emulsifiable concentrates

APPLICATION

Application	Rate per Hectare	Frequency
Bentgrass, Poa, Tees and Greens	6 - 12L	Apply every 14 days
Fairways, Athletic fields and Lawns	12L	Every 30 days
Overseeding	6 - 12L	Every 30 days or as required
Trees, Shrubs and Ornamentals: Foliar spray Soil drench	2 - 4L in 400L water 60 - 150ml per 4L water	Thoroughly drench soil around area
Nursery application: Corrective Maintenance	1L in 400L water 700ml in 400L water	Thoroughly spray to the point of run-off Apply every 30 days or as needed

High chelated iron and low nitrogen
Fast green up
No growth surge
