

Zipline User's Guide

Promotes Balanced Hydration.

Unlocks Existing Bound Nutritional Elements.

Delivers Consistent Results.

A blend of two quality soil surfactants combined with a mineral solution bio-extract.

Zipline powered by AquaVita™ Technology is a soil surfactant that contains Aquatrols' cutting edge, proprietary technology specifically designed to aid turf care professionals to consistently deliver Fast, Firm, Fine Turf with soil resource enhancement. This proprietary technology aids soil enhancement by unlocking existing bound nutritional elements and is safe to use on all turf types.

HOW TO USE ZIPLINE

WHAT IT DOES

Zipline powered by AquaVita Technology improves water infiltration from the surface through the rootzone and aids soil enhancement by unlocking existing bound nutritional elements. A Zipline program promotes consistent playing surfaces through balanced hydration and soil resource enhancement.

HOW TO APPLY

Apply Zipline through conventional spray equipment in a minimum of 190L of water per hectare or 1.9L of water per 100 sq metre. For best results apply before next scheduled irrigation cycle.

APPLICATION RATES AND FREQUENCIES

MONTHLY APPLICATION FAIRWAYS

Apply Zipline at 6.5 - 19L/Hectare (65-190 mL/100 m²).

Apply monthly prior to a scheduled irrigation cycle.

MONTHLY APPLICATION GREENS

Apply Zipline at 19- 25L/Hectare (190-250 mL/100 m²).

Apply monthly prior to a scheduled irrigation cycle.
