

CMM LEASING OPPORTUNITY

KEYENCE XM-5000 | Handheld Probe Coordinate Measuring Machine

Illustrative equipment image. Actual leased equipment and included accessories will be confirmed during inspection and handover.

PROPOSED LEASE
\$2,750 / month

INITIAL TERM
36 months

SECURITY DEPOSIT
\$5,500

All amounts in AUD, excluding GST. Indicative proposal only, subject to equipment condition and signed lease agreement.

Bring precision measurement to your shop floor

PrimeHyd is offering customers the opportunity to lease a KEYENCE XM-5000 handheld probe coordinate measuring machine, providing access to advanced dimensional inspection capability without the upfront capital cost of purchasing a system.

The XM-5000 is designed for 3D and GD&T measurement and may be used on the shop floor or in-machine, subject to manufacturer operating conditions and application suitability. It may suit manufacturers, machine shops, maintenance teams, fabricators and quality departments.

Why consider leasing?

- Preserve capital for production equipment, tooling and working capital.
- Access a portable measurement system for suitable inspection tasks.
- Assess the equipment in your own workflow before considering a future purchase.
- Agree a defined monthly cost and lease period instead of a large upfront purchase.

Manufacturer-published specifications

Model	KEYENCE XM-5000
Maximum measurement space	2,000 x 1,200 x 1,000 mm
Indication error accuracy	+/- (7 + 9L/1000) micrometres, under manufacturer-stated conditions
Repeatability	+/- 3 micrometres
Use cases	3D dimensional inspection and GD&T measurement

Specifications are manufacturer-published and subject to the qualifications in the KEYENCE datasheet. PrimeHyd does not independently guarantee the leased unit's calibration status or condition.

Indicative commercial terms

Monthly lease fee	AUD \$2,750 per month, excluding GST
Initial term	36 months
Security deposit	AUD \$5,500; refundable subject to agreement and permitted deductions
Payment	Monthly in advance; due within 7 days of invoice
Included	XM-5000 and only accessories/software listed in signed handover schedule
Excluded unless agreed	Calibration, verification, repairs, servicing, software licence fees, operator labour, inspection reporting, delivery, installation and training
Insurance	Customer to maintain cover for agreed replacement value and provide evidence on request
End of term	Return equipment and listed accessories in agreed condition, fair wear and tear excepted

Quality, on time, on Budget.

Important proposal notes

This is a marketing and indicative pricing proposal, not a binding lease contract. The proposed rate is not a verified market rental rate. Final terms depend on equipment condition, accessories, software/licence rights, calibration status, maintenance arrangements, customer credit

approval and insurance. A definitive written agreement and equipment handover schedule must be signed before the lease commences.
