## Tripod flowtech® 75 MS

### Sachtler flowtech® 75 Carbon Fibre Tripod with Mid-Level Spreader and Rubber Feet

SKU: 4585

Being able to quickly set up and level a shot in any environment and terrain gives you more time to be creative and get the perfect shot. The Sachtler flowtech® 75 MS carbon fibre tripod's mid-level spreader and rubber feet mean that each leg extends or retracts independently of the other two. Each leg has an individual clamping mechanism so that you can loosen and lock them from a single location near the 75 mm bowl. This deployment speed is paired with an easy to use ergonomic, lightweight design that can follow into the most intense environments.

The carbon fibre design of the Sachtler flowtech75 MS only weighs 3.5 kg, but is capable of supporting up to 20 kg. The design also provides a high level of torsional stability so that you can be sure your pans will always stay completely level with no twisting. When you've got the perfect shot, the legs can be folded up while remaining attached, where a magnetic lock holds them in place until you release them again.

## Technical specifications

Feature	Metric	Imperial
Range	flowtech®	flowtech®
Payload	0 to 20 kg	0 to 44 lb
Bowl size	75 mm	75 mm
