

Mipa Kunststoffreiniger-Spray is a highly efficient cleaning agent for all common plastics that eliminates electrostatic charges and prevents the regeneration. Removes grease, oil, wax, dirt and soot with ease and furthermore improves the adhesion.

#### Substrate

applicable on all common plastic materials

#### Pre-treatment/ Cleaning:

#### Characteristics

to eliminate and avoid electrostatic charges  
all-purpose agent to remove greases, oils, waxes, polutions, a.s.o.  
easy to use  
enormous time-savings

#### Colour/ grade of gloss:

colourless

#### Preparation:

Shake the can vigorously before use!  
Observe technical data sheet L7 "plastic coating" !

#### Application:

#### Flash-off:

#### After use:

#### Drying times:

#### Drying:

#### Processing conditions:

spray booth and object temperature should be between 18°C and 24°C.

#### Storage:

keep it closed in dry and cool rooms, storable for 2 years

#### VOC regulations:

EU limit value for this product (cat. B/e): 840 g/l (2007)  
This product contains at most 747 g/l VOC

#### Safety information:

see material safety data sheet
