YOUR SURFACE – OUR PASSION

VINYL ZAPPER®

QUALITY MADE IN GERMANY SINCE 1987

The patented Vinyl Zapper® removes quickly & safely vinyl, adhesive residues, reflective decals, stickers, pinstripe and double-sided adhesive tape from acrylic paints on metal, wood and aluminum surfaces.

The wide and flexible paddles spread-out the area of contact while floating on a cushion of air protecting the painted surface from burning.

Removal of vinyl letters from vehicle

Removal of adhesive residues

The Vinyl Zapper® is installed using a specially designed MONTI adaptor system mounted onto either the MBX® pneumatic Heavy Duty or electric drive units.

ADVANTAGES OF MONTI'S PATENTED VINYL ZAPPER®

Easy Handling

Due to the air cushion effect occurring when at operating speed, the Vinyl Zapper® runs smoothly and without vibration.

High Operation Speed

Faster working speed and a high cleaning effect due to the safe operating speed of 3500 rpm.

No Paint Damage

A patented design and specially formulated material based on natural rubber ensures there is no damage to the paintwork and no smearing on the surface despite the operating speed of 3500 rpm.

Long Service Life

A long service life is achieved due to the wide constructional design. The special design allows flexibility of the rubber segments and avoids premature failure of the Vinyl Zapper®.

Quality MADE IN GERMANY

Our products are manufactured in Germany and meet the highest safety regulations and quality standards.

REACH-Conformity

Composition of material according to Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Patented Design – No Breaking of Rubber Segments

Patented design (sloped against running direction, rounded spaces) allows flexibility of rubber segments and avoids breaking.

No Center Support – No Burning the Paint

Air-filled spaces between the rubber segments allows ventilation and avoids surface damaging heat production.

Vinyl Zapper® Electric Set

- drive unit MBX® Electric
- Adaptor system 23 mm
- 3 Vinyl Zapper®

in a blow mold case

230 V Item Code SP-202-BMC

120 V Item Code SP-105-BMC

in a cardboard box

230 V Item Code SP-202

120 V Item Code SP-105

Vinyl Zapper® Pneumatic Set

- drive unit MBX® Pneumatic Heavy Duty
- Adaptor system 23 mm
- 3 Vinyl Zapper®

in a blow mold case

Item Code SP-110-BMC

in a cardboard box

Item Code SP-110

Also, the Vinyl Zapper® is included in our sets for applications in Automotive industry e.g.

MBX® Pneumatic Heavy Duty (HD) Set

for content see figure

in a blow mold case

Item Code SP-121-BMC

in a cardboard box

Item Code SP-121

MBX® Electric Set

in a blow mold case

230 V Item Code SE-206-BMC

120 V Item Code SE-106-BMC

in a cardboard box

230 V Item Code SE-206

120 V Item Code SE-106

Accessories | Consumable

Vinyl Zapper®
Item Code ZU-010-01

Adaptor System 23 mm
Item Code AS-009

Air Pressure Regulator
23 mm Item Code ZU-071

Swivel Connector for Air
Supply Item Code ZU-073
