Models and specifications

HydroScrub P300 P and P300 H

The HydroScrub models P300 P and P300 H are two products in a completely new range of floor cleaners. The range increases cleaning width and reduces cleaning time compared to standard lances and nozzles in a very cost effective way.

The HydroScrub P300 models are robust and efficient surface cleaners and a total of 6 nozzles are included. Both models are easily assembled with only a few tools and will be ready for use in only a few minutes.

HydroScrub P300 P is a robust and efficient surface cleaner for smaller floor cleaning tasks.

HydroScrub P300 H is a hand held model for the cleaning of larger surfaces of processing equipment, at work stations, tables or for cleaning of walls. The handle can be mounted for both right and left hand use.

Applications and Customer Groups:

The two models can be used on following models in the low end and part of the middle range High Pressure Washers.

POSEIDON, cold water models: POSEIDON 2, 3, 4 and the smaller POSEIDON 5 models

NEPTUNE, hot water models: NEPTUNE 1, 2, 2 SPECIAL, and NEPTUNE 4 models

Both HydroScrubs are perfect tools for cleaning of surfaces in Auto/transportation, food industry, black industry, craftsmen and in private house holdings. The HydroScrub P300 is for a limited daily use of up to 1 – 1½ hours and with a max. inlet temperature of up to 60°C.
