Floor cleaning	1. Make the dilution as directed. 2. Mop or scrub over the entire surface 3. Rinse with fresh water.	1 to 50 parts water

**Note:** The best method to check the chlorine strength is to use Chemical Indicator Paper. The strength of the chlorine odour may vary depending on temperature or volume of detergent in the bottle therefore it is not a true indicator of concentration.

**Risk:** Corrosive. Causes severe burns. Irritating to respiratory system.

**Safety:** Never mix POWER GEL with any other chemicals as this may produce toxic chlorine gas or other poisons. Do not breathe mists or spray. Avoid contact with eyes and skin. Avoid release to the environment. Wear suitable gloves and eye/face protection.

**Considered hazardous according to the criteria of Safe Work Australia.**

**Classified as dangerous according to the Australian Dangerous Goods (ADG) code.**
