

Suma® Opal L9

Aluminum-safe warewash detergent and destainer for hard water

Suma Opal L9 is a non-corrosive warewash detergent specially formulated to provide excellent soil removal in all water hardness conditions. Suma Opal L9 is classified as 'Irritant', a significant step forward in personal safety considerations.

Key Properties

Suma Opal L9 is a non-corrosive formulation, which combines safety with performance. It contains a blend of alkali and builders for the effective removal of grease and fats. The formulation also contains active chlorine for effective removal of tannin stains. This unique combination of ingredients is also suitable for use on soft metal surfaces such as aluminium.

Benefits

- ▶ Safer to handle and safe to use due to non-corrosive formulation
- ▶ Excellent cleaning action to rapidly remove fats, starch and proteins
- ▶ Excellent removal of tanning stains by the presence of active chlorine
- ▶ Safe for patterns, glazes and machines
- ▶ Safe for washing aluminium
- ▶ Concentrated formulation gives greater economy in use

Designed For

- ▶ Hospitality
 - ▶ Lodging
 - ▶ Healthcare
 - ▶ Food Service
-

Use Overview

Directions for Use

Suma Opal L9 is normally applied using Diversey automatic dispensing equipment and is suitable for use in a wide range of single and multi-tank ware washing machines. To ensure perfect cleaning results, dose at a concentration of 3-6 ml/l depending on local site conditions. At a concentration of 3ml/l, this product will prevent scale deposits in water containing up to 80 ppm CaCO₃.

Please consult your Diversey representative for optimum performance.
