

Suma® Classic M7

Dishmachine detergent and destainer

Suma Classic M7 is a high performance manual dosed powder detergent for dishmachines specially formulated for excellent soil removal in all water conditions.

Key Properties

Suma Classic M7 is an alkaline powder detergent suitable for use in small, commercial dishmachines. It contains a source of alkali for effective removal of grease and fats. The formulation also contains a powerful sequestrant for prevention of scale in all water conditions, and active chlorine for effective removal of stains.

Benefits

- ▶ Superb results due to effective, free-flowing granulated powder formulation
- ▶ Effective stain removal by the presence of active chlorine
- ▶ Suitable for all water conditions
- ▶ Stable, free-flowing formulation is easy to dose

Designed For

- ▶ Hospitality
 - ▶ Lodging
 - ▶ Healthcare
 - ▶ Food Service
-

Use Overview

Instructions for Use

Recommended initial dose is 1-5 g/L dependent on the local conditions.

For after dose in re-use machines see guidelines in table below.

Water hardness (ppm CaCO ₃)	dosage in g/L rinse water
0 – 120	1.5 - 2.0
120 – 240	2.0 – 4.0
>240	4.0 – 5.0

For domestic dish wash machines 20 -30 g (1 scoop is approximately 30g), is recommended dependent on the degree of soiling.

Product Specifications

Description	
Appearance	White powder
pH (1% solution)	12.0
Density (Kg/l)	1.13
