

Diverfoam 1050

Alkaline Foam Cleaner

Description

Diverfoam 1050 is a liquid all purpose alkaline foam cleaner, which contains solvents and wetting agents to quickly remove dirt, grime, grease and fats. Ideal for most hard surface cleaning in the food, beverage and dairy industries.

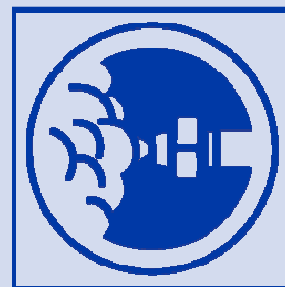

VK52

Key Properties

- Diverfoam 1050 is a clear liquid, medium to high alkaline cleaner containing efficient surface active agents and solvents.
- Diverfoam 1050 is a free rinsing and suitable for removing soils from surfaces such as ceramics, concrete, painted surfaces, vinyl, steel and most plastics.

Benefits

- Rapid removal of soil - Unique blend of alkaline salts, solvents and wetting agents ensures quick, effective results.
- Economical - Fast spray on/wipe off application.
- Versatile - Either manual use, mechanical or steam applications are applicable.

Diverfoam 1050

Alkaline Foam Cleaner

Use Instructions

Use Diverfoam 1050 at the following concentrations depending on application and soil type.

Foam Cleaning: 1. Pre-rinse surface to remove gross soiling. 2. Using a foam applicator, apply Diverfoam 1050 at 10-50ml/L of water (1%-5%v/v), depending on soil loading. 3. Allow foam to stand for approximately 5 minutes, but do not allow to dry. 4. Rinse product contacting surfaces with potable warm water after use.

General Cleaning: 1. Prepare a 50ml/L of water (5%v/v) solution of Diverfoam 1050. 2. Apply with brush, cloth or mop. 3. For heavy soils allow to penetrate for 5 minutes, but do not allow to dry. 4. Rinse product contacting surfaces with potable warm water after use.

Steam cleaning: 1. Use Diverfoam 1050 at a suggested concentration of 25ml/L of water (2.5%v/v). 2. Apply to surface. 3. For heavy soils allow to penetrate for 5 minutes, but do not allow to dry. 4. Rinse well with warm water.

Diverfoam 1050 can be used for cleaning areas within a large processing room provided the room can be divided into distinct areas. No edible product or packaging material may be present in the area during cleaning and there can be no possibility of contamination of product or packaging material as a result of cleaning.

Approvals

In New Zealand: NZFSA approved C38
(All animal product except dairy)

Product Specifications

Appearance	Clear liquid
Relative density at 20°C	1.07-1.09
pH (1% solution at 20°C)	12-13

The above data is typical of normal production and should not be taken as a specification

Safety Reminder:

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available online at www.diversey.com or by calling Toll free: Australia, 1800 647 779 or New Zealand, 0800 803 615.
