

STROBE

Concentrated Floor Maintainer

PRODUCT INFORMATION SHEET

DESCRIPTION:

STROBE Concentrated Floor Maintainer is specifically formulated for the maintenance of all commercial and domestic resilient and hard surface flooring.

STROBE Concentrated Floor Maintainer incorporates a patented Surfactant system, which emulsifies greasy and oily soils and holds them in suspension for ease of removal without redeposition, resulting in cleaner floors with less cleaning effort.

STROBE Concentrated Floor Maintainer is low foam, rinse free, and highly concentrated for economical use with either Auto Scrubbers or manual cleaning methods. Does not contain any chemicals or solvents likely to have a detrimental effect on floor seals or polishes, or any surface not affected by water.

FEATURES AND BENEFITS:

- Can be used on all commercial and domestic resilient and hard surface flooring
- May be used as an effective spray and wipe cleaner
- Has unique properties that emulsify greasy soils
- Does not contain harmful chemicals or solvents
- For use with Automatic Floor Machines or manual cleaning methods.

TECHNICAL INFORMATION:

Appearance	Clear red liquid
Odour	Sweet Rose
pH	9.5 – 10.2
Specific Gravity	1.012 ± 0.005
Percentage Volatiles	93.5 - 94%
Solubility in Water	Infinite

USE:

The high concentration of **STROBE** allows for dilution rates at up to 1:100 with water for Auto Scrubber use or manual cleaning.

Higher concentrations should be used for heavily soiled surfaces and/or preparatory scrubbing prior to reapplication of Sealer Finish or Polish.

Dilution Rates:

Daily Auto Scrubbing	1 part to 100 parts water.
Heavy Auto Scrubbing	1 part to 50 parts water.
Damp Mopping	1 part to 80 parts water.
Wet Mop & Scrub	1 part to 50 parts water.
Spray & Wipe Cleaning	1 part to 20 parts water.

Dilution rates may be increased where heavy dirt conditions prevail.

SAFETY:

First Aid

Eyes: If splashed in eyes, flush with water for 15min. Seek medical advice.

Skin: Wash affected area with soap and water.

Inhalation: If mists are inhaled, remove patient to fresh air. Seek medical advice.

Swallowed: Do NOT induce vomiting. Give milk or water to dilute. Seek medical advice.
