

## SUPER CONC - DISINFECTANT

### PRODUCT INFORMATION SHEET

#### DESCRIPTION:

**SUPER CONC – DISINFECTANT** Commercial Grade Disinfectant/Detergent/Deodorant – Super Concentrate. This product is part of the Super Conc System – a range of products that are sold in super concentrated form. This allows us to deliver unparalleled economy of in use solutions. Because of the high dilution rates involved, we have specifically formulated these products to be used through automatic proportioners. **SUPER CONC – DISINFECTANT** can be used whenever a Commercial Grade Disinfectant is required. It can also be used as a multi-purpose cleaner and deodorizer. It is safe to use on all hard washable surfaces including basins, toilets, benches, walls, floors and tiles.

**SUPER CONC – DISINFECTANT** leaves a pleasant fragrance that freshens the air.

#### FEATURES AND BENEFITS:

- Formulated for use through automatic proportioners Leaves treated areas hygienically clean.
- Scientifically balanced blend of anti-bacterial agents surfactants, water softeners and sequestering agents. Super Concentrate Packed in 5 Litre containers.
- Easy to use. Once your proportioner has been installed and set up by the JAL Area Manager, all you need to do is push a button and the correctly diluted product is delivered into your bottle, atomizer or bucket.
- You always get the correct dilution rate. You don't need to train your staff in how to dilute products. Our proportioners do the diluting for you. You always have enough product to do the job. You never waste product by using too high a concentration.
- Powerful cleaner reduces the need for manual agitation and saves you money by reducing labour costs.
- Reduced inventory because one product can be used for a variety of purposes. 5 Litres of **SUPER CONC – DISINFECTANT** gives you between 500 and 1000 litres of ready-to-use product.

#### TECHNICAL INFORMATION:

<b>Appearance</b>	Clear Blue mobile liquid
<b>Odour</b>	Floral
<b>pH</b>	9.00-10.00
<b>Specific Gravity</b>	1.069 ± 0.01
<b>Percentage Volatiles</b>	Approx: 72.00%
<b>Solubility in Water</b>	Soluble

#### USE:

For Industrial use only. Choose whether you wish to fill into bottles or buckets or both.

The JAL Area Manager will order and set up your proportioner to fill either bottles or buckets or both. The JAL Area Manager will set your proportioner to dilute **SUPER CONC – DISINFECTANT** at between 1:100 and 1:200 depending on your needs and soil conditions. To fill a bucket, simply clip the hose-retaining clip onto the side of your bucket and push the button until the liquid reaches the required level in your bucket.

To fill a bottle or atomizer, simply slide the bottleneck over the spout. Push the bottle back onto the lever (like a soft drink dispenser) until your bottle is full. Release pressure on the lever to stop product flow at any time. Apply ready-to-use diluted product to surface either by spray, cloth, sponge or mop.

**SAFETY:** Not classified Hazardous according to criteria of Worksafe Australia
