

# ADLAM™

## VERSATILE LAMBING HARNESS

### For Bearings And Much More

The harness with many uses around lambing for improved lambing results. The ADLAM Versatile Lambing Harness is a truly multifunctional aid at lambing time. Farmers love it for:

- ✓ **Effective and Clean Treatment of Bearings (Prolapses),** with the ability to restraint for later checking
- ✓ Effective restraint of ewes for mothering on, and can prevent smothering of lambs
- ✓ On their feet support for ewes with metabolic disease
- ✓ Upright support for cast ewes and enables restraint of ewes in the field for easier handling.

Animal welfare and user friendly, the ADLAM Harness can be used year after year. It's winning praise around the world for its unique and effective design.

Now with heavy duty crimped cord attaching the tubing

**The Bottom Line**  **More Lambs Weaned**

## FARMER FEEDBACK

*"The new Adlam versatile harness worked really really well, doing both prolapses and mothering on perfectly."*

Ian Bell, Hollbankgate, Cumbria, UK.

*"I tried a couple of the harnesses after one ewe strained so much every other method failed after a day or two. The harness was amazing, and kept the bearing in, and the ewe then lambed through the harness. A great design and I recommend them to all farmers. Safe - easy to use, clean and reuse, and they work!"*

Kim Kelly BVSc MACVSc, Southland, NZ.

*"The harnesses are awesome. They are robust and easy to use and stop the ewe arching her back to strain. If it's a triplet ewe, saving her can mean saving four lives; three prime lambs and a cull ewe for the works – a pretty good return on the investment in the harness!"*

Matt and Lynley Wyeth, Spring Valley Farm, Wairarapa, NZ

*"A good product that's well designed and easy to use and clean".* Jana Aylett, Yeovil, UK.

*"I was rather wary about using this on one of our young ewes but it worked really well. She was prolapsing over and over but this harness stopped it within minutes. I have 2 and now will always keep one handy and ready for use".* Deborah Liebbrant, USA.

*"Highly recommend this product, well made and better design than the generic products here".* Sylvi, Texas

*"We were very pleased with the harness – it's easy to put on and adjust for ewes or hoggets. They are comfortable for the sheep while keeping the bearing in place. We had a higher success rate of lambing ewes with bearings using the harness than with any other method we have used. The harness is reusable making it good value for money and we recommend them."* Robert & Lucy Thorneycroft, Wairarapa, NZ
