

CLEANWALK ADHESIVE

Cleanwalk mats trap impurities in areas that require dust and dirt control. The tacky surface pulls dirt and dust off shoe soles before they can contaminate a “clean room”. Effective and easy to use, each mat has 30 layers of tough film laminated together in a stack. Once the top film is contaminated, simply pull it off and discard. Cleanwalk mats offer economical dirt control on low-profile carpet, tile or concrete surfaces.

CODE	SIZE (mm)
Cleanwalk Adhesive	
CW9145-SH	914 x 457 (Single)
CW9145-CTN	914 x 457 (Carton of 4)

*Mat sizes may vary + / - 5%
