

### Slim Line - High Speed

- Premium high speed steel
- Wire fishing holes in the head and shaft
- Tapered for easy retrieval

Premium quality- high speed nail chewing drill bits mounted on a 3/16" ultra flexible shaft with fishing wire accommodation on the flute as well as the shaft.

This model will provide the utmost in durability and service. Highly recommended for areas where construction materials consist of nails, steel plates, sheet metal, and other items of similar nature, as well as wood structures. The slow back taper allows the bit to retrieve easily.

\*To sharpen bit, use a bench grinder or a drill sharpening mechanism. Do not use a file! Longer models should be used with J712 (manipulator).

SWL Code	Part Number	Dimension
01202	HS244	24" x 1/4"
01203	HS248	24" x 3/8"
01204	HS242	24" x 1/2"
01205	HS364	36" x 1/4"
01206	HS368	36" x 3/8"
01207	HS362	36" x 1/2"
01208	HS484	54" x 1/4"
01209	HS488	54" x 3/8"
01210	HS482	54" x 1/2"
