

High-performance Cloud PoE Gateway

WI-AC105P(V2) | WI-AC108P(V2)

Overview

Wi-Tek's gateway is an intelligent network device integrating AP management system and gateway features. It supports Ethernet connection up to 2.5Gbps on WAN and LAN ports, which provide high-speed wired network. It is featured with multiple VPN protocols, multi-WAN, abundant security strategies, behavior management and other enterprise-level function, making it an idea choice for many application scenarios such as hotel, office and SMB network. In addition, the gateway supports cloud management. Users can quickly complete network device configuration, remote management as well as maintenance, greatly reducing equipment costs, labor costs, and time costs for wireless network construction.

Features

Built-in AP management system

With built-in AP management system, Wi-Tek's gateway can realize unified management and configuration for multiple APs, enhancing the working efficiency and saving much time.

Multi-WAN Load Balancing(For WI-AC105P)

Multi-WAN load balancing allocates data streams based on the bandwidth ratio of every WAN port, which increases the utilization rate of multi-line broadband.

Intelligent Bandwidth Control

With Intelligent Bandwidth Control, the gateway can prevent a single user from occupying too much bandwidth, which ensures overall network fluency.

802.3af/at PoE Output

Supporting the 802.3af/at PoE protocol, WI-AC105P and WI-AC108P provide 4/8 PoE output ports, which makes network deployment easier and more flexible.

Multiple VPN Protocols

The gateway supports multiple VPN protocols including OpenVPN/ IPsec/ PPTP/ L2TP, offering flexible choices to create VPN connection.

Abundant Security Strategies

The gateway integrates abundant security strategies such as ACL, DHCP static assignment, MAC address filtering dynamic ARP, static ARP binding and NAT, ensuring a highly-secure network environment.

Cloud Management

Wi-Tek Cloud's quick installation and configuration provide reliable performance, visual management, which is easy to operate and maintain and remote access.
